ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

GENTLEMEN,—Your Permanganate-Phenylene is a most happy combination, invaluable as a germicide and deodorizer. The absence of any objectionable odor after brief exposure should be a powerful recommendation, especially in the case of private families

TORONTO, Aug. 31st, 1885.

GENTLEMEN,—It affords me pleasure to testify to the value of your Permanganate-Phenylene as a disinfectant and antiseptic. My personal experience of its value in my practice is that it has no equal in the local treatment of chronic and ill-conditioned Ulcers, Phagedenic and Cancerous Diseases, Puerperal Fever, Catarrh of the Nose and Uterus, with or without discharge. It is calculated to destroy noxious and foul-smelling effusions. I find it preferable to Carbolic acid and other preparations of coal tar.

In the event of Cholera, Small-Pox, Scarlet Fever, or other contagious diseases, its composition makes it the most useful antiseptic known.

WHAT IS CATARRH?

Catarrh is a muco-purulent discharge caused by the presence and development of the vegetable parasite amoeba in the internal lining membrane of the nose. This parasite is only developed under favourable circumstances, and these are:—Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxomoea, from the retention of the effete matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat; up the eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death. Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue. Some time since a well-known physician of forty years' standing, after much experimentation, succeeded in discovering the necessary combination of ingredients which never fail in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease, should, without delay, communicate with the business manager, Toronto Mail, Messrs. A. H. DIXON & SON, 305 King St. West, Toronto, Canada. Inclose stamp for their treatise on Catarrh.
