ONTARIO OPTICAL INSTITUTE

The next Class in Optics and Refraction will commence on Tuesday,
January 14th.

THE teaching embraces most practically everything needed to intelligently and satisfactorily fit spectacles. A handsome Diploma is given free at the end of the course to successful students.

"I had taken two courses in other Institutions previous to taking yours, and I have no hesitation in saying your line of procedure and method of teaching is so vastly superior as to have no comparison. If I had had the good fortune to have fallen under your instruction at first, I am sure my previous work in optics would have been more satisfactory." T. P. SMITH, Druggist, Elora.

Dr. Hamill intends giving his Course of Instruction either in
St. John, N.B., or Halifax, N.S., at an early date. Those in-
terested communicate at once.

DR. W. E. HAMILL, M.D.,

Room 11, Jones' Building
King and Yonge Sts., TORONTO. Specialist in Eye Diseases
PRINCIPAL.

Advanced and private students received at any time.
