

There is also a large amount of work in the way of searches for papers, memoranda upon which letters are written, &c., regarding which no statement can be made; as although much labor and time are devoted to the same, no account is kept of this sort of work.

The usual Tabular Statements shewing Census, schools, &c., accompany this Report. The reports of the various Commissioners, Superintendents, Inspectors and Agents will likewise be found attached hereto.

All respectfully submitted,

JOHN A. MACDONALD,
Superintendent General of Indian Affairs.
