UNIVERSITY CLUB HEARS GARSON

Urges Settlement.

In an address to the University of Toronto Liberal Club, Premier Stuart Carson, referring to the inability of the Canadian public finance to stand the impact of unfavorable world conditions and their impact on our economy.

He reviewed the history of Confederation which formed Canada into a federal state and divided the powers of taxation between the Dominion and the provinces. At the time of Confederation, he explained, the Dominion was given unlimited power for action, while the provinces were limited to direct taxation within their own province.

This system, he stated, was quite alright for the days when our society was not so integrated as it is today. The system was not efficient because of increases in the cost of provincial services such as education and road building.

"The great fault of our 80-year-old financial plan of Confederation is that under today's conditions it aggravates those basic conditions instead of relieving them," said Mr. Carson of Manitoba. stated that it was high time for settlement of Dominion-Provincial Relations.

Cost-of-living May Bring Bonus to Quebec Students

Quebec—Effect of increased living costs on the value of scholarships granted by the Quebec Government is under review by provincial authorities.

Increased cost-of-living, particularly in Europe where about a dozen students are taking post-graduate courses with government support has raised the question of possible increase in the amounts of the provincial bursaries, established by legislation more than 20 years ago.

JUNIOR CLASS

(Continued from page one)

Junior class stated that he considered that it was a very poor showing on the part of the Junior class in making such a small vote, "especially since" he said, "I loaned by blue Waterman's fountain pen to the voters and one of them forgot to return it. I'd like to get it back." Yeomans also stated that there were 22 Junior student passes to be picked up. These can be obtained now only from Ralph Hay, secretary of the S. R. C.

The Junior Class will hold a dance in Memorial Hall on Friday night, November 7. As well as dancing there will be an opportunity for bridge fans to play a few games. Since space is limited, only Juniors and their escorts or partners will be admitted.

Little Timber

and the foresters on the campus.

Some of you may be wondering who our new profs are and what excuse they have for being here, so we have dug up a little information for you.

Mr. H. Don Long received his Bachelor's degree in Forestry at the University of New Brunswick in 1934, and since that time he has taken graduate work at McGill University. He has been employed by the Dominion Forest Service, by the Prince Edward Island Government, and by the Research Division of the Woodlands Section of the Canadian Pulp and Paper Association. His work with this latter organization was in the field of silviculture, and he has had an opportunity to see forest conditions all over eastern Canada.

Mr. Henry W. Blenis received his Bachelor of Science in Forestry from the New York State College of Forestry, Syracuse, in 1944, and last year was doing graduate work in that institution. He carried out trail location fire suppression work in Montana and Washington when a student. He served Overseas with United States Army and participated in Ardennes and Rhineland campaigns. He was a company commander, having risen from the ranks, when wounded in action in Germany.

Frank Freese, Jr., received his Bachelor's degree in Forestry at New York State College of Forestry in June, 1947. He was a student there in 1940-42, when he joined the United States Army. He served in the European theatre of operations with the 84th Infantry Division and returned to Syracuse on termination of his Army Service.

Mr. E. T. Owens received his degree of Bachelor of Science in Forestry in 1946, University of New Brunswick and following graduation has been continuously employed with Fraser Companies Limited. During the summer as a student he was employed with the Dominion Forest Service. Ted is well known on the campus as an outstanding basketball player. He captained the team in his Senior year as well as carrying out the duties of S. R. C. President. He will be the basketball coach this year and we are very proud to have him back amongst us once again.

DEPRESSION ON THE WAY STUDENTS WARNED AT TORONTO Profit Before Need

Frank Scott, professor of law at McGill University, and National Chairman of the C. P. S. told a student audience at the Univ. of Toronto recently that Canada is headed for another depression unless a "national development of a healthier moral attitude towards economic and political affairs" takes place.

Charging that a political philosophy of "profit before need" prevails in Canada today, the speaker assailed "power groups behind governments," who, he asserted, constantly attacked labor, the largest class, with the greatest right to consideration.

The concept of "political man" should be an important one to restore to Canadians, professor Scott urged. Politics was now a social adventure and a creative art.

One of the factors cited by the speaker as tending to prevent a depression was the necessity of taking part in the reconstruction of Europe, with its concomitant high production at home.

The world was closely interconnected, and the dependence of countries upon one another was marked, especially that of Canada upon the United States. This dependence alone, the speaker declared, made a depression in Canada almost inevitable.

Replying to a request for a statement to the student body, Prof. Scott replied, "It seems to me the great question facing Canada today, is whether we can control this increasing inflation that the decontrol policy of the Federal government has made possible. If we do not stop it soon it will certainly lead us into another economic crisis, which might be worse than that of 1929."

Prof. Scott was born in Quebec City, son of Canon F. P. Scott. He is a Rhodes Scholar and teacher of Constitutional Law at McGill University, Montreal.

Napoleon dispersed the rioters with a whiff of grape fruit.

Beam Campus Chat Over Queen's CFRC.

by C.U.P.

Kingston—The first broadcast of the year was aired recently over CFRC, Queen's University's Amateur radio station.

The weekly broadcasts will bring to listeners campus news, interviews with campus personalities, musical features and outstanding dramas.

A highlight of the first broadcast was "The Club Book," a powerful drama of women's indecision.
