

2
But it is necessary to cross a harbour
to get to the lot and cross my
property the Harbour not being
safe at all some winters
and a very short time after
winter and in summer it is
five miles by the Road
Now do you for a moment think
that Indians will face such difficulties
When I have a Wood lot adjoining
the Indian lands the fact is they
have been taking wood of my lot
for five years for which I have
received nothing ^{they} ~~and~~ haven't been
able to get wood sufficient to run
them for one week of ~~the~~ Property
Bought from Gaster once they
bought it and are not liable to
get any this winter etc
Now what am I to do. Stand
out and watch my Wood lot
I must confess that it is no use of
talking to the Indian agent
I can't get no satisfaction from
him
