

high the value of our freedom and
has always an inspiration to the
generations who are privileged to
hear your voice. 184145

Your Dr. Westhillers is also my
Physician and he may have tried
you only because of experiencing two
head attacks is the reason I have
failed to call and enjoy your
delightful company.

I recall with special satisfaction your
kindness in asking me from time to
time to the Albany Club.

These lines convey my warm
friendly greetings and good wishes.
May health abound and great
contentment fill your mind as you
reflect on your worthy years of
service in many fields of activity.

Very sincerely

David H. Gibson
