** This Company began operations in December.

Yukon.

The coal production of the Yukon in 1909 is reported as 7,364 tons, valued at the mine at \$49,502. Active mining operations were carried on only by the Tantalus Coal Company, at Tantalus, in the southern Yukon, and by the Northern Light, Power, and Coal Company, Limited, operating on Coal creek, forty miles northwest of Dawson. Run of mine coal sold in Dawson at about \$10 a ton, and screened coal, \$18.
