MARKET REVIEW AND FORECAST

TORONTO Feb. 18.—Markets generally are holding pretty steadily at high prices. An upward tendency may be seen in the markets for coarse cereals and the prices being paid for dairy produce. The thing that characterizes markets of this kind is especially scarcity in the grain market. Practically no Ontario wheat is coming on to the market. Millers throughout the province have been able, however, to secure small supplies, and from the West Export Company, and a few sales of oats are being made in the neighborhood of \$1 a bushel. The price of wheat in mill feed is quiet, as there are very few offerings of this product.

WHEAT.

As yet there has been absolutely no movement of Ontario wheat to market. Dealers claim that there is plenty of wheat in Ontario to keep the mills in the province well supplied if it could be got out. So long, however, as oats range around \$1 a bushel and corn keeps off the market, wheat will be held by farmers for feeding. In the meantime Ontario farmers are receiving some wheat from William through the Grain Export Company at the following prices: Manitoba—No. 1, 23½¢; No. 2, 23½¢; No. 3, 23½¢; No. 4, 23½¢; No. 5, 23½¢;
