

## Severe Pains In The Liver,

### Had Several Doctors.

A COMPLETE CURE EFFECTED BY  
A FEW VIALS OF  
**MILBURN'S LAXA-LIVER PILLS**

Mr. F. H. Wood, Crystal, Ont., writes: "For several years I was greatly troubled with severe pains in the liver. I had several doctors attend me but without any success. At last I was advised to try Milburn's Laxa-Liver Pills, and after taking a few vials I was completely cured. It is, now, about six months since I took them, and I have had no return of my trouble since. I can honestly recommend them to every person who is troubled the same as I was."

Milburn's Laxa-Liver Pills are 25c per vial or 5 vials for \$1.00, at all dealers or will be mailed direct, on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

#### Stick to the Farm.

"Stick to the farm," says the President, To the wide-eyed farmer boy, Then he hies him back to his White House home, With its air of rustic joy.  
"Stick to the farm," says the railroad king, To the lad who looks afar, Then hies him back on the double-quick, To his rustic private car.  
"Stick to the farm," says the clergyman, To the youth on the worm-fence perch, Then lays his ear to the ground to hear A call to a city church.  
"Stick to the farm," says the doctor wise, To those who would break the rut, Then hies him where the appendix grows, In bountiful crops to eat.

## QUESTIONS AND ANSWERS. Miscellaneous.

### HOMEMADE LIGHTNING-RODS.

I would like to have published in the columns of your valuable journal, an article that appeared last year re homemade lightning-rods. Please give best method of making and putting in position, and how deep rods should be in the ground, quality of material, etc.

J. N. T.

Ans.—In issue of July 28th, 1910, page 1208, under the caption "Homemade Lightning Rods," you will find your question discussed.

### TURNIP LICE.

What would you recommend for destroying turnip lice? Would you advise scattering on land plaster or spraying with bluestone? If so, what quantity of bluestone would you use? Lice are principally on the under side of leaves.

L. K.

Ans.—This is very difficult to treat, owing to the aphid working on the under-side of the leaf. See answer to this question in July 14th issue, page 1154. Kerosene emulsion is considered a more suitable spray than bluestone, and slaked lime is more effectual than land plaster.

### ADDITION TO NAME.

A young man goes to a Western Province say his name is Robert Jones. But for better distinction he adds Henry, and enters for homestead as Robert Henry Jones, and keeps that name all through his business for twenty years or more. He has considerable property and never married. In case of his demise, would his heirs have any trouble claiming his property, with or without a will? If so, what steps should be taken to make it all right?

J. M.

Ans.—Neither his heirs in case of intestacy, nor his devisees in the event of leaving a will, would have any serious trouble of the sort suggested.

### DAMAGE FROM FIRE.

A man starts a fire in July in his hay field to boil his tea kettle, neglects it, a high wind afterwards drives it into the woods on his own land.

1. Is it an offence against the law to start a fire? If so, what is the punishment?

2. Is he responsible for any damage it may do his neighbors afterwards?

A READER.

Ans.—The Statute Law Amendment Act, 1907 (Ontario Statutes of Edw. VII., Chap. 23, Sec. 41), provides that no action shall be brought against any person in whose house or building or on whose estate any fire shall accidentally begin, nor shall any recompense be made by him for any damage suffered thereby, any law, usage or custom to the contrary notwithstanding; provided that no contract or agreement made between landlord and tenant shall be hereby defeated or made void. These provisions are declared by the Act to have been in force on and since 1st July, 1867.

### FEEDING SHOW CALF—HOGS COUGH.

1. What would you feed to a Short-horn bull calf born on the 10th of April? It is sucking the cow three times a day, along with a quart of oat chop and clover grass three times a day. I intend to show at the fall fair.

2. What is the best way to kill the perennial sow thistle?

INTERESTED READER.

Ans.—1. The meal ration would be improved by adding a little bran and oil-cake meal, say a pint of the former and half-pint of the latter, feeding as much of the mixture as he would clean up at each feeding. If the cow is giving a fair share of milk, he should do well on this. If not, a nurse cow, in addition, would flesh him faster.

2. Perennial sow thistle is one of the most difficult weeds to combat, since it spreads by roots as well as seeds. Keep it from flowering. Summer-fallow or hoe crop the land, cultivating so often as to prevent the plant from putting forth leaves, thus starving the thick rootstock. Do this all one season, then follow with a heavy, dense, quick-growing crop, such as millet or rape. Eternal vigilance is the price of success in combating this weed.
