

The Farmers' Phone

Gives Unequaled Service
Stock at Regina

KELLOGG Code No. 2839 Farm Line Telephone is especially built for the severe rural line service. It has sturdy, well seasoned, quartered oak cabinet; Kellogg standard long distance transmitter (over two million of one type in use), powerful five bar generator; reliable, durable, receiver with Kellogg Bakelite shell. This telephone gives the most reliable service, with the least amount of repairs. Its use throughout the world proves it the unequalled farm line phone.

We have a stock of these subscriber and profit making telephones at Regina, Saskatchewan, ready for prompt delivery. Here you can buy from us complete supplies, including these splendid telephones and your orders and inquiries will have our prompt, intelligent attention.

Do you need wire, pole or line hardware, tools, batteries, etc., for your spring work?

A selected stock for spring renewals and extensions, with switchboards and telephones, ordered now will mean a saving and enable you to give a better service. Write us today.

We leave a booklet entitled "How to Organize a Rural Telephone Company," and we will forward this on request.

taner and Little Giant Neck Yoke Centres.

Over 1000 Agree That Service Pays

MORE than a thousand Goodyear Service Stations dot the roads of Canada from coast to coast.

Each is an independent concern—forging out its own destiny. Yet each has become a link in a vast chain of co-operative service-to-consumer endeavor. Voluntarily—and for a big reason.

Every man stands in this wide-spread line of service outposts because he believes implicitly in the in-built and invariable

goodness of Goodyear products. He has an abiding faith in the absolute rightness of Goodyear business methods.

In linking up with this institution they have agreed to carry out a policy of service initiated by Goodyear in your interest.

This service saves you great annoyance. It consists in doing things for you that must be done, or your car will suffer—yet things you are prone to neglect because of their disagreeable character. Note how this service saves your clothes, your time, your temper.

Goodyear Service Station Men will:

- advise you of the right size of tires for the load you carry, to guard you against the danger of overloading.
- tell you what air pressure best suits your needs, and so eliminate the dangers of under-inflation.
- test your tires for air pressure (and many will put in free air).
- inspect your wheels for alignment.
- inspect your tires for tread-cuts, stone-bruises and other injuries. They will provide the remedy and advise you as to prevention.
- explain to you the value and use of Tire-Saver Accessories, and provide you with Goodyear Tire-Saver Kit which contains all the equipment necessary for making repairs on the road.
- explain the necessity of selecting good tubes, and their value in saving your tires.

Many Goodyear Service Stations will gladly:—

- test your battery, and add distilled water when needed.
- fill your radiator.
- raise or lower your top as the weather demands.
- examine your springs for broken leaves.
- suggest the proper grade of oil or gasoline for your car and the work it does.
- drain out old oil every 800 or 1,000 miles, if you wish, and add fresh oil.
