TRED HER ER AND THEN ED

herous prisoners who were arrested for the crime laughed atly when stoned about this phase of the spyraey.

HONOR TO THE DEAD

Liverpool City Pays Its Tribute to the Late Mayor Gaynor.

Body to be Brought Back Home on Board the Lusitania.

LIVERPOOL, Sept. 13.—The body of the late Mayor Gaynor of New York was removed from the Liverpool town hall, where it had been accorded honors by Great Britain and taken to the Cunard Steamship, Lusitania, where it was placed in the special mortuary chapel on the forward deck for the homeward journey.

A special guard of six policemen watched over the body in the town hall throughout the night. The casket rested on a great falque which had been brought to Liverpool from Westminster Abbey.

A death mask of the features of the late mayor of New York also was taken this morning in accordance with instructions received here by cable from Mrs. Gaynor.

The Liverpool clergy headed by the Bishop of Liverpool, the Right Rev. Francis James Chavasse, desired to co-operate with the civic authorities and they persuaded Ratus Gaynor to consent to the holding of a religious service at seven o'clock this morning. In the dim light of the candles and in the great fog, which enshrouded the hallway, the Rev. Theodore A. Howard, vicar of St. Matthews, conducted the Church of England funeral ritual over the remains of the deceased mayor.

The only attendants at the service, besides several impassive policemen, were Ratus Gaynor, the mayor of the city, and the secretary of the United States consulate, and the secretary of the Liverpool consulate.

Following the ceremony the body was carried to a hearse which was drawn by four horses through the hall deserted streets of the city to the landing stage. It was then transferred to the ships tender and conveyed to the liner Lusitania, which is lying in midstream.

COUNTY COUNCIL HAVE ARGUMENT

What Does Maintenance at the Collegiate Mean? A Whitewash Case.

where promises to be a very lively session of the county fathers in the court House this afternoon. A difference of opinion as to what constitutes maintenance at the Collegiate exists. The county officials do not think it should bear part of the expenses when the walls of the institute receive a coat of whitewash, or when a new typewriter is purchased. These are two instances cited. Mr. John Buskard will appear before the council and make an effort to convince the councillors that they should bear half of such expenses.

Another matter, which contains considerable interest and which will be taken up, is the matter of the city and county, joining hands in the maintenance of the road which leads to the House of Refuge and the Brant Sanitarium. The session is called for these special matters.

HEALTH OF EMPRESS WORRIES THE KAISER

EMPERESS AUGUSTA VICTORIA. There are disquieting reports in regard to the health of the German Empress. Her Majesty has not been well for the last twelve months and the Kaiser is worried.

THAW'S CASE IS GOING MERRILY ON IN STATES

An Overwrought Reporter Had Everybody in the Hotel All Excited Last Night—No Decision Reached Yet.

Everyone on our side was on the side of law, and our only interest was to defeat any attempt at kidnapping or any other illegal tricks, such as those of a kidnapper, which were being practiced on the innocent people here.

Replying to a question in regard to the purpose of her visit, Mrs. Pankhurst said that she was in England to do the work of the movement for the day-white slavery and contagious diseases. I want to describe all this work in America.

There are other movements in imitation of ours. Look at the hunger strike which is being employed by the men arrested during the strike in Dublin. Sir Edmund Carson, I see, has been drawing up a constitution for Ireland if Home Rule passes. We have already summoned him to make proper provision for the representation of women.

Mrs. Pankhurst said she had not wasted its time in replying to criticisms. They were convinced of the righteousness of their cause and felt confident that opportunity as shown by their readiness to die for the cause was the only means of obtaining their object.

DUBLIN LABOR CRISIS ACUTE

DUBLIN, Sept. 13.—The labor crisis became suddenly acute to-day on account of the decision of the farmers throughout Dublin County to lock out all the laborers who are members of the Transport Workers' Union. They have given the men a week's notice, but it is expected that the farm hands will not wait to be locked out, but will go on strike to-day.

Mrs. Pankhurst's Appeal; Not Afraid That She Will Be Stopped At The Port

She Outlines a Strong Case for Women—Is Confident That the American Authorities Will Treat Her Justly—Complains Bitterly Against the English Press.

PARIS, Sept. 13.—Mrs. Emmeline Pankhurst, the militant suffragette leader, who is staying at a quiet little hotel here, says she is not disturbed over the reports that she may possibly be barred from entering the United States. She said to-day: "I visited the United States twice before the last time two years ago, and have only the kindest recollections of the courtesy and cordiality which I met with there."

Will Eschew Militancy. Replying to a question in regard to the purpose of her visit, Mrs. Pankhurst said that she was in England to do the work of the movement for the day-white slavery and contagious diseases.

There are other movements in imitation of ours. Look at the hunger strike which is being employed by the men arrested during the strike in Dublin. Sir Edmund Carson, I see, has been drawing up a constitution for Ireland if Home Rule passes. We have already summoned him to make proper provision for the representation of women.

Mrs. Pankhurst said she had not wasted its time in replying to criticisms. They were convinced of the righteousness of their cause and felt confident that opportunity as shown by their readiness to die for the cause was the only means of obtaining their object.

More Dastardly Work. LONDON, Sept. 13.—The station buildings at Kenton, near Newcastle, with all their contents, were destroyed this morning by the arson squad of the militant suffragette organization. Placards were left on the scene of the latest suffragette outrage, bearing the words: "Premier Asquith is responsible for militancy. Apply to him for damages."

Day Gone By. I have noticed that all the best paid and easiest positions are considered to be a man's privilege. The day has gone when it is possible to argue as it was once, that education is had for a certain class of people merely unfitting them for their natural destiny, which is manual labor.

MAY SEND THE LADY BACK

NEW YORK, Sept. 13.—The nature of the reception that awaits Mrs. Emmeline Pankhurst, the militant suffragette leader, when she arrives here from Europe next month, will depend upon the outcome of an investigation of her actions in England now being made by the immigration authorities of the United States.

CANADA NOT TO GET RID OF HARRY THAW

A New Move is Made Which May Mean Liberty to Slayer of Stanford White—Buys Ticket to England.

MONTREAL, Sept. 13.—Canada is not rid of Harry Thaw—that is, if Thaw can be remembered that in the course of another visit to the country, and in this instance, at any rate, he will be a bona fide tourist and as such will, it is said, be beyond the reach of any interference on the part of officials of the Canadian immigration department. It developed to-day, that the notorious slayer of Stanford White was hardly an hour in American territory before, through the intervention of local friends, a through ticket from Colebrook, N. H., to England, via one of the White Star Liners, sailing out of the port of Montreal, had been secured for him. Of course, it is explained, it was not necessarily Thaw's intention to take the trip across the pond; the primary intention of himself and his local friends was to place him in possession of prima facie evidence that he was a tourist, in event of his coming to a country a second time, for it will be remembered that in the course of the embroglio which was featured co-incident with Thaw's acquaintance with the Dominion immigration authorities much stress was laid on the fact that he had landed in the country without having purchased a through ticket showing that he was simply a transient on his way through Canada's territory to some other land more in consonance with his tastes and predilections.

Collegiate Board Are at Odds With County

An Account Over a Year Old Which Has Not Been Paid by the County Council—Meeting Last Night.

The Collegiate Board met in the board room last evening. Present: Mr. Frank W. Lahey, G. Pickles, W. B. Seace, Principal Burt and Secretary J. J. Buskard. The school management committee reported that the new members of the staff were: Clinton G. Beck who will teach English and History at a salary of \$200 per year; Andrew Haynes, English subject and Junior Latin, \$190 per year; Margaret Smith, Art and Junior English, \$200 per year. The committee recommended that the salary of Miss O'Neill be increased to \$150 per year and that of Miss Louise Murray to \$100 per year.

Dr. Frank reported that the work in connection with fixing up the grounds in the rear of the Collegiate was almost completed and the middle of next week would see the work finished. The grounds in the rear have been tenaced and look fine and add much to the appearance of the Collegiate. Both Dr. Frank and Mr. R. E. Ryerson were of the opinion that some kind of shrubs should be planted in front of the Collegiate and also flower beds should be made there to endeavor to beautify the grounds. A fine fence between the grounds and Principal Burt's property will have to be built which will be of an ornamental nature.

SCORE OF MEN BADLY BURNED

An Explosion at a Big Mill in Buffalo To-day—Terrible Sufferings.

BUFFALO, N.Y., Sept. 13.—A score of men were burned, six of them seriously, in a series of explosions that shattered the walls of the Clover Leaf Milling Company's plant on Babcock street near Seneca street early to-day. Fire followed the explosions, and the elevator flour mill and store house were destroyed, causing a loss of \$300,000. In the first hour's excitement many of the workmen suffering from slight burns, hurried away to their homes, and for a time it was believed that five men had lost their lives. President Donald B. Fraser, aided by the police, made a systematic canvass, however, and at daylight reported that all of his men had been accounted for.

TWO CANADIAN SURVEYORS KILLED

KETCHIKAN, Alaska, Sept. 13.—Two surveyors attached to the Canadian boundary survey, were killed last Saturday when a landslide destroyed their camp at Cape Musson, Dall Island, according to word received here to-day. The names of the men were given as Robertson and Bade. The party had been working on the boundary survey up Portland canal and Dixon entrance all summer, maintaining camps at Cape Musson and Cape Chacon. A prospector who went to investigate, found an immense slide had started from the top of the mountain, tearing down the mountain and cut into the bay 100 feet, and in several places for a width of more than 100 feet. No trace could be seen of the former camp.

NEW HAVEN WRECKAGE BURNED DESPITE GOVERNMENT'S ORDERS

CLEARING THE WRECKAGE AWAY. Criticism has been aroused because of the fact that despite the order issued from Washington to officials of the New York, New Haven and Hartford Railroad not to clear away wreckage of the recent wreck of the White Mountain Express, almost every vestige of the horrible catastrophe was cleared away with the least possible delay. The photograph herewith shows workmen busily engaged in burning up and clearing the debris from the tracks.
