KING ALEXANDER OF SERBIA

Takes Affairs of Government Into His Own Hands—Decrees Suspension of Constitution and Restoration of the Former Laws.

Belgrade, Serbia, April 8.—A coup d'etat has been executed by King Alexander of Serbia. He has issued two proclamations, the first decreeing a suspension of the constitution adopted April 19, 1901, and repealing certain objectionable laws passed December, retiring the senators and councillors of state, and dissolving the Skupstina and re-enacting the laws as they existed previous to the constitution of 1901. The second proclamation restores the latter constitution to its former validity. The reason for this step is that the ousted senators and councillors passed impracticable laws and the constitution tended to fan political passions and hindered the development of the nation. The affairs of the Balkans, the king adds, are serious and Serbia needs order, unity and peace.

Disregarded Law. New Westminster, B. C., March 17.—The Jessie Shirley Company has learned that the Canadians have laws and that they enforce them.

The company was booked for twelve engagements in British Columbia and when the special car in which the thespians travel headed this way the members of the company were informed that there was a strict quarantine against the State of Washington in general and the town of Blaine in particular. The only way to get into British Columbia without trouble, the authorities said, was for all hands to stay in the car when going through the country where smallpox is supposed to exist. All this was to be done if the actors persisted in their refusal to be vaccinated before passing from under the folds of the Stars and Stripes.

They persisted, and, as they evidently got the impression that Canada was only a small place, anyway, they left the car at Blaine and wandered about to see the place. Then they tried to cross the line and fill their twelve engagements. They were gathered in and quarantined and will stay that way until the quarantine is lifted, which may not be for some time yet. The twelve engagements have been cancelled for the present.

CRITICS ARE CONDEMNED

President Joseph Smith Uses Vigorous Words

In Dealing With Those Who Have Attacked the Mormon Church. Special to the Daily Nugget. Salt Lake City, April 8.—At Salt Lake before a vast assemblage during the conference, President Joseph Smith, head of the Mormon church, vigorously expressed his contempt for those who have made a fight against the church in the Reed Smoot senatorial campaign. "I want to tell you," said Smith, "there are no more loyal people on earth than the Latter Day Saints. We have been maligned, mistreated and misrepresented but not by the nation. It was by lying, hypocritical, sneaking and cowardly wolves in sheep's clothing who go through the world seeking to stir up strife and trouble for the righteous." Smith characterized these men as contemptible hounds, Latter Day devils who were born into the world to lie, and who are fulfilling their mission.

TREATY IS DESIGNED

To Test the Soundness of Russia's Promise

Manchuria Practically Under Russian Control Since Occupation of 1900.

Washington, April 8.—It is admitted at Washington that the new commercial treaty between the United States and China is especially designed to test the soundness of Russia's promise to maintain an open door into Manchuria. Ever since the Russian occupation of 1900 the province has been practically governed by the Russians who have regulated all external trade. Americans are opposed to this.

Has Jurisdiction

Washington, March 7.—By a close reading of the immigration law recently signed by the president, Commissioner-General Sargent will have jurisdiction over the Philippines, Guam, Hawaii and Porto Rico. The section of the law which makes this extension reads: "That for the purpose of this act, the words 'United States' as used in the title, as well as in the various sections of this act, shall be construed to mean the United States and any waters, territory or other place now subject to the jurisdiction thereof."

The bureau of immigration has heretofore not had jurisdiction, but the treasury department is given jurisdiction, and that department controls the immigration bureau. The effects of the new law are the subject of a report which has been called for and sent to the president.

Creatore created a great furore in Vancouver and Seattle as the leader of Ellery's Royal Italian Band. Under his direction the band played as if inspired. Creatore, at the head of his own band, has been meeting great success all winter and in fact up to the time of his misfortune.

Princess Nea Is Killed

Nice, March 14.—While driving in the Fabron Quarter of Nice today, where the late Queen Victoria frequently went for her promenades, the Princess Yourewski was nearly killed by the horses attached to her carriage becoming frightened and running away.

On one side the road borders a precipice and had they turned in that direction the princess would certainly have been killed, but the coachman kept his presence of mind and managed to turn the frightened animals into a wood on the opposite side, where they finally brought up against a tree with such violence that both horses were thrown to the ground.

The princess counts herself fortunate in escaping with a sprained wrist and a number of painful though not serious bruises. The coachman was unhurt.

It is a mistake to iron flannels. If pulled out evenly while on the line, so that they dry in good shape, and if when dry they are folded and put in the bottom of the clothes basket and the other clothes piled on them, they will be smoothed enough to suit anybody but a crank. Hot irons take the life out of flannel.

LATE REPORT FROM CHINA

Has Occasioned Increase of United States Asiatic Squadron—Action Creates Surprise at Peking—Insurgents Under Arms in Kansu.

Special to the Daily Nugget.

Pekin, April 8.—A report of the action of the United States in increasing the Asiatic squadron on account of "alarming reports of the situation in China," excites much surprise in Peking. Such reports are not sent by the United States or British legations, which possess good facilities for judging of the situation in China. The only disturbances considered serious are those in Kwang Si province, where 500,000 rebels are said to be under arms and directed against foreigners. Latest reports regarding Gen. Tung-Fuh Siang, the Boxer leader, and Prince Tuan, the exiled anti-foreigner, who is at the head of the insurgent forces in the north-western province of Kansu, are reassuring.

Governor Accused.

Little Rock, Ark., March 14.—Gov. John Davis is facing impeachment charges. Attorney-General Murphy today filed with the executive investigating committee twenty charges of gross misconduct on the part of the chief executive, and the committee will take testimony in support of the charges Monday night.

The attorney-general, charges the government with frequent violations of the criminal laws of the state in borrowing money from the state treasury and drawing twice for the same items of expenses from his contingent fund.

The most serious charges are that the governor has been in the habit of accepting and receiving gifts from those who obtain contracts to furnish supplies to the state charitable institutions.

It is also charged that he accepted the use of a private car from the Memphis & Choctaw and the St. Louis Southern Railways, and that the governor acted as agent in the sale of a farm, for the preliminary board at from \$30,000 to \$40,000 above its value.
