

ONTARIO WOMAN'S FORTUNE

Freed From That Weak, Languid, Always Tired Feeling, by Lydia E. Pinkham's Compound.

Thessalon, Ont.—"I cannot speak too highly of your medicine. When my appetite is poor and I have that weak, languid, always tired feeling, I get a bottle of Lydia E. Pinkham's Vegetable Compound, and it builds me up, gives me strength, and restores me to perfect health again. It is truly a blessing to women, and I cannot see in recommending it to others."

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

There are probably hundreds of thousands, perhaps millions of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over 30 years ago by a woman to relieve woman's suffering. If you are sick and need such a medicine, why don't you try it?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

He Was Busy Why did you break into the house in the middle of the day? asked the magistrate.

"Well, said the accused, 'I had several others to cover that evening."

Freckle-Face

Sun and Wind Bring out Ugly Spots, How to Remove Easily Here's a chance, Miss Freckle-face to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

The exceptionally warm weather of last week and the first of this week started the trees into foliage and also brought out the caterpillars. The latter were in evidence in several orchards a week ago which seemed exceptionally early for them.

Nature makes the cures after all. Now and then she gets into a tight place and needs helping out.

Things get started in the wrong direction. Something is needed to check disease and start the system in the right direction toward health.

Scott's Emulsion of Cod Liver Oil with hypophosphites can do just this. It strengthens the nerves, feeds famished tissues, and makes rich blood.

FOR SALE BY ALL DRUGGISTS Send the name of paper and this ad. for one beautiful Scott's Emulsion and CHICK'S Black-Head Book contains a Good Luck Penny.

A Great Industry

THE PARTY AT THE NOVA SCOTIA STEEL WORKS

The Nova Scotia Steel and Coal Co., Ltd., is the successor of the earliest colliery company that mined in Nova Scotia, and this company was also the first to manufacture steel in Canada. From a small pioneering concern, the business has grown into an industry of enormous dimensions and importance. The employees at the various works aggregate over 6,500, and the output of bituminous coal per annum is 900,000 tons. In all, five collieries are operated at Sydney Mines, Cape Breton, and of the total output 600,000 tons are sold and delivered in the various parts of the St. Lawrence, the Maritime Provinces and Newfoundland, 70,000 tons are shipped as bunkers and the balance of 230,000 tons is used in the company's own furnaces and steel plant at Cape Breton.

From the Wabana Mines, Newfoundland, the company mines and ships over 600,000 tons of iron ore. In connection with its work, the company operates a time-charter fleet of ten to fifteen vessels, with a tonnage capacity of from 85,000 to 100,000. The blast furnace, open hearth steel furnaces (including Harmet and engineering workshops which are at New Glasgow the total output is 100,000 tons per day.

The utmost interest was displayed in these works by those members of the party representing kindred trades, it being regarded by them as one of the most important points of the whole tour. In view of the vast expansion going on all over the Dominion, it was apparent to the expert visitors what an excellent outlook the company had.

A Great Aid To Farmers

Mr. W. W. Hubbard, Superintendent of the Dominion Government Experimental Farm near Fredericton, in a recent interview gave the following facts about the N. B. farm, which he may purchase for about 200 acres of the farm, which comprises 460 acres in all, have now been cleared, and 25 acres is in readiness for corn, potato and root crops this year. Another 100 acres will be cleared and the remainder left in forest for the present. The farm now employs about twenty men, and during the summer this number will be increased to fifty or sixty.

The work of building barns to house 100 head of cattle, 25 horses, an extensive piggery and a poultry plant will be started at once. The raising of heavy horses and general live stock will be specialized in from the first and a general investigation of the best varieties of crops for the New Brunswick climatic and soil conditions will be conducted.

It is possible that before long a quantity of seed may be available for distribution. Mr. Hubbard is of the opinion that the establishment of an experimental farm to serve the needs of New Brunswick alone will impart a great impetus to the agricultural industry in this province.

International Horticultural Congress Ghent, Belgium, 1913.

An international horticultural congress will be held at Ghent in 1913 at the same time as the great battle of flowers. The congress will include five sections, viz.: 1 floriculture and the special processes of forcing plants; 2 fruit growing; 3 market gardening; 4 science and popularization; horticultural engineering; 5 horticultural economy (trade, transport, association).

A national dairy and cold storage congress will be held at Ghent during the International Exhibition of 1913.

THE TUPLIN SILVER BLACK FOX CORPORATION LIMITED

An Investment of \$1000 in this Company will purchase \$1000 of Bonds and \$400 of Common Stock

The prospectus states that the bonds will probably all be redeemed in three years. Present indications lead to the conclusion that the Company will be able to redeem the bonds within 18 Months and at the same time pay a handsome dividend on the Common Stock.

On this basis the investor, would receive in return for his \$1,000.00, in October, 1913

- 1-2 Years Interest on Bonds.....\$30.00
10 p. c. Dividend on Common Stock.....\$40.00
Possibility of redemption of Bond at 105 p. c.....\$1050.00
\$1120.00

Thus returning the money with interest, at the rate of 24 p. c. Per Annum, and still leaving \$400.00 of Stock, which when all bonds are redeemed should earn 50 p. c Per Annum or better.

This is the only Fox Company selling stock that will pay a dividend this October. It is expected that the whole capital will be disposed of in a few weeks, and applications for bonds, with 40 Per Cent. Common Stock bonus, should be addressed without delay.
