THE KINGS EXPRESSES THANKS FOR UNITED STATES

THE DOMINION AID

LONDON, Feb. 6—Parliament was prorogued today and will reassemble on February 12. In the House of Commons the Speech from the Throne was read by the Speaker. In it the King emphasized that the first aim and endeavor of the Allies was the successful prosecution of the war. The entry of the United States, he said, lent additional strength to the Allied arms and inspired fresh confidence in ultimate victory.

WASHINGTON, Feb. 6—The British steamship Tuscania, with 2,179 United States soldiers on board, has been torpedoed and sunk in the war zone. No estimate of the loss of life is available, but 1,100 survivors have been landed at Buncrana and Larne, Ireland.

The disaster was officially announced by the War Department, which had received only meagre advices, without names of survivors or victims.

The Department issued this statement:

"The War Department has been officially advised that the steamship Tuscania was torpedoed and sunk and that survivors numbering 1,100 were landed at Buncrana and Larne, in Ireland. There was a total of 2,179 United States troops on this vessel. No names of persons lost has been reported to the War Department and no names of survivors was reported. Additional particulars are promised as soon as received."

The War Department officially announced that it would be impossible to announce a list of those on board until complete reports had been received. Instructions were sent by wireless and cable by the War, Navy and State Departments to their representatives in England and Ireland, directing that every detail be forwarded at the earliest possible moment.

The troops, composed chiefly of detachments of Michigan and Wisconsin National Guardsmen were travelling on the Tuscania a British vessel, under convoy of British warships.

The President, Secretary Baker and, in fact, all official Washington were up late waiting for further news. Only the briefest despatches were received, and none gave details of the attack on the liner. Even the time was missing, but it was assumed that it occurred early this morning as the first message was filed at London at 3 o'clock this afternoon, probably within an hour after the relief ships reached the Irish coast.

See the "Scrap leather" table at Parker's Pte. McGill, of Cambridge recently invalided home from England, has been sent to Halifax for further medical treatment.
