When Pride Comes Between.

So many of the the little chaffing roblems of married life could be masbered, so many of the mists of misun derstanding could be dissipated by the sunshine of love, so many of the discords in music at home could be translated into harmonies if false pride did not so often come between, writes William George Jordon in the April DELINEATOR.

True pride is the guardian and tector of what is best in us; false pride is the sullen defender and apoloist of our weakness.

Life has so much real pain and sor row so many dark clouds floating over the sky of home, care and trouble that eemingly no human foresight can prevent, that it seems almost extrava gance to manufacture troubles merely offer them as sacrafices on the altar of usnity, this false pride.
