### THE NEW METROPOLITAN.

Right Rev. William Bennett Bond Who Has Just Been Elected Archbishop and Metropolitan.

Bishop Bond of Montreal has been selected by the house of bishops of the Church of England in Canada to succeed Archbishop Lewis as metropolitan. He will hereafter be known as lord archbishop of Montreal and metropolitan of Canada, having jurisdiction over the territory from the

western limits of Ontario to the Atlantic Ocean.

Archbishop Lewis, who has been seriously ill at New York, but is recovering, will be permitted the courtesy title of archbishop metropolitan while he lives, but it will not be officially employed.

The new metropolitan of Canada has been bishop of Montreal since 1878. He was born at Truro, England, in 1815, and emigrated from England to Newfoundland when he was 19. In 1840 he was ordained a deacon of the Anglican church and a priest one year later. His early ministry was spent in organizing mission stations in the Province of Quebec. His first important charge was that of St. George's, Montreal. He is president of the Montreal Theological College and one of the most scholarly divines in Canada.

### DEAN FARRAR.

Churchman and Author Who is Critically Ill in London.

Very Rev. Frederick W. Farrar, Dean of Canterbury, is ill, and his condition is critical. Prayer for his recovery was offered at the services in St. Paul's on recent Sundays.

Dean Farrar is now 70 years old. He was ordained deacon in 1854 by the Bishop of Salisbury and three years later was admitted into holy orders by the bishop of Ely. Until

DEAN FARRAR.

1871 he was one of the masters at Harrow, and for five years thereafter was head master of Marlborough College, a position he held with great distinction. Among his other offices was that of honorary chaplain to the Queen and chaplain in ordinary. In 1883 he was appointed archdeacon of Westminster, and in 1895 he was given his present office in the church. Dean Farrar has written voluminously upon religious and philosophical topics, but his fame will rest upon his "Life of Christ," which was published in 1874.

### South African War Medals.

The silver medals presented to Strathcona's Horse by the King for their war services in South Africa are of the pattern shown in our sketch. One side bears the likeness of the late Queen, with the inscription, "Victoria Regina et Imperatrix," the other a figure of Britannia holding the laurel wreath of victory, and the inscription, "South Africa, 1899-1900." The ribbon silk supporting ribbon has a broad centre band of orange, bordered by narrow dark blue lines and red outer stripes.

The King's Fashion Factor.

The soft felt fedora, now so popular, was first worn by King Edward, then Prince of Wales, at Homburg, near which watering place is a famous felt hat factory. On the occasion of his first visit he bought several for himself and friends. They won instant favor. His Royal Highness appeared one year at the Goodwood races in a round felt hat, no one else dreamed, even in the hottest weather, of attending these races save in a silk hat and frock coat. Luckily for the English world, of which the King is ruler of fashion, his good sense has again and again broken through old-world prejudices.

All vice stands on a precipice, and to engage in any sinful course is to run down the hill. There is, therefore, no safety except in the fixed principle and purpose to do right.—Tillotson

A lazy liver must be only a tired liver, or a starved liver. A stick is all right for the back of a lazy man. But it would be a savage as well as a stupid thing to beat a weary man or a starving man because he lagged in his work. So in treating the lagging liver it is a great mistake to lash it with drastic drugs. In ninety-nine cases out of a hundred a torpid or sluggish liver is but a symptom of an ill-nourished body, whose organs are much overworked. Let your liver alone. Start with the stomach and its allied organs of digestion and nutrition. Put them in proper working order, and see how quickly your liver will become active and energetic. Dr. Pierce's Golden Medical Discovery has made many marvellous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisons, accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

### The Druggists are Busy.

Druggists report great demand for the new 25 cent size of Catarrhzone, and to-day's sales almost cleared out their stock. They explain this rapid run on Catarrhzone by the fact that it gives better satisfaction than any other remedy on the market. Druggists say that Catarrhzone is the only remedy that really does cure Catarrh, Bronchitis and Asthma. It relieves quickly, is pleasant and convenient to use, and is a sure cure, or your money back. Readers suffering from Irritable Throat, Bronchitis, Catarrh, &c., are strongly advised to try Catarrhzone; it never fails to cure even the worst cases.

## KAISER JOKES AT THE PLOT

### German Emperor Doesn't Feel Scared at the Threats on His Life.

Romagnoli, Alleged Assassin, has been Nabbed in Berlin, It's Said—Little Can be Learned About the Man.

Berlin, April 24.—Emperor William regards the news of the plot against his life as "Tartarian nachricht," (Tartar news), but he approves the comprehensive steps now being taken to forestall the alleged plotters. The emperor saw an account of the plot and immediately warned the emperor, who joked about the matter, thus removing her disquiet.

Following the emperor's hint, a federation of the German male singing societies is now being organized for the purpose of being able to offer regular prizes to composers for melodies, deep feelings folksongs, and to foster their mastery rendition. His majesty has promised 30,000 marks towards the fund. At Emperor William's express wish the German singing societies abroad, especially those of the United States, will be invited to join the federation.

## BABY WAS BORN IN A COFFIN

### Virginia Woman Buried Alive While Unconscious From Narcotics or Poison.

Disinterment Disclosed the Birth of a Child in the Grave—Husband Under Arrest for Murder.

Christiansburg, Va., April 22.—J. H. Vaden, white, is in jail here, charged with the murder of his wife by poison. The woman's supposed death occurred early on Sunday morning, April 7, and she was buried next day under such circumstances that the sheriff and commonwealth's attorney determined to make a thorough investigation.

The officials found that Vaden was in the room at the time of his wife's supposed death. He summoned a neighbor and his son, who found Mrs. Vaden apparently dead. They were surprised, as she had seemed to be well up to that night. They sent for some women, but when they arrived it is said they were refused permission to perform the usual office.

Vaden said his wife had complained of great pain in her stomach, had gotten up out of her bed and made an ash poultice, which she had applied to her breast. She then sat on the edge of her bed, and had died while in that position.

Mrs. Vaden's brother, who lived near by, was not present at the death, and the next day friends and neighbors removed the body to Lafayette, about 10 miles from Vaden's house, and buried it.

A coroner's jury, summoned 10 days afterward, assembled at the grave of Mrs. Vaden, and her body was exhumed. In the coffin they found the body of a newly born child, with its mother.

Physicians declared the birth had not taken place when Mrs. Vaden's body was placed in the coffin. They testified that the woman must have been buried while in a comatose state, caused by narcotics or poison, and had died in her coffin. Her stomach was removed for analysis by a chemist.

Vaden was arrested and locked up without bail. His niece testified that his treatment of his wife had long been cruel and heartless.

### Women Are Slaves to Brica-a-Brac.

"There are no people on the face of the earth who litter up the rooms of their homes with so much useless, and consequently bad furnishing as do the Americans," writes Edward in "The Ladies' Home Journal." "The curse of the American home to-day is useless brica-a-brac. A room in which we feel that we can freely breathe is so rare that we are instinctively surprised when we see one. It is the exception, rather than the rule, that we find a restful room. As a matter of fact, to this common error of overfurnishing of so many of our homes, we are directly due the nervous breakdowns of our women. The average American woman is a perfect slave to the useless rubbish which she has in her rooms. This rubbish, of a costly nature where plenty exists, and of a cheap and tawdry character in homes of moderate incomes, is making housekeeping a nerve-racking burden. A serious phase of this furnishing is that hundreds of women believe these (junk) ornaments in their rooms. They refuse to believe that useless ornamentation always disfigures and never ornaments. Simplicity is the only thing that ornaments. It does more; it dignifies. The most artistic rooms are made not by what is in them, but by what has been left out of them. One can never quarrel with simplicity, and nothing goes to make for perfect good taste as surely as a simple effect. A tasteful effect is generally reached by what has been left undone. And that is the lesson most needed in America to-day; not what we can put into a room, but what we can leave out of it."

### STOMACHS THAT WON'T WORK

That Retain the Food and Refuse to Digest It. Make the Head Heavy and the Nerves Weak. Need Stuart's Dyspepsia Tablets.

There is a cure for dyspepsia. Sufferers who have tried nostrums will probably be skeptical, but skepticism vanishes when Stuart's Dyspepsia Tablets are tried. Whether the trouble is dyspepsia of long standing, or merely a simple case of indigestion, the relief is prompt and pronounced. The less the trouble the fewer the tablets need be taken.

Heaviness after eating, sour stomach, as indicated by belching, fatigue with slight exertion, or with no exertion at all, disturbed sleep, nervousness, constipation, depression, "blues," these things can commonly be set down as symptoms of dyspepsia. And dyspepsia is merely indigestion in an aggravated form.

By promoting perfect digestion, Stuart's Dyspepsia Tablets produces strong nerves, restful, refreshing sleep, pure blood and good sound healthy flesh. They make the skin clear, the eyes bright, the mind cheerful.

Stuart's Dyspepsia Tablets are a medicine and more than a medicine. They digest the food and make it easy of assimilation, and they relieve the inflamed, diseased condition of the membranous linings and the glands of the stomach and bowels. They help the digestive organs over the hard places, and put them in a healthy, active condition. They effect a quick and permanent cure. You don't have to continue taking them forever, still it is well to have a box handy, and take one at the first return of the trouble.

Perfectly well people are made sick by eating too much, or unwholesome food, but not if they take a tablet after eating. Treatment with Stuart's Dyspepsia Tablets does not necessitate dieting or any change of habits. They digest the proper food and act upon the other kind in such a way as to make it pass off quickly and harmlessly. You may eat and drink what you like, as much as you like if you take a tablet afterwards.

Stuart's Dyspepsia Tablets are sold by all druggists at 50 cents for full size package.
