**WEAK, PALE AND WORN OUT WOMEN**  
 Can be Saved From a Life of Misery by Dr. Williams' Pink Pills.  
 Women are called the "weaker sex" and yet nature calls upon them to bear far more pain than men. With too many women it is one long martyrdom from the time they are budding into womanhood, until age begins to set its mark upon them. They are no sooner over one period of pain and distress than another looms up only a few days ahead of them. No wonder so many women become worn out and old looking before their time.  
 In these times of trial Dr. Williams' Pink Pills are worth their weight in gold to women. They actually make new rich blood, and on the richness and regularity of the blood the health of every girl and every woman depends.  
 Mrs. Urbane C. Webber, Welland, Ont., is one of the many women who owe present health and strength to Dr. Williams' Pink Pills. Mrs. Webber says: "About three years ago, while living in Hamilton, my health began to decline. The first symptoms were headaches and general weakness. After a time the trouble increased so rapidly that I was unable to attend to my household duties. I lost flesh, looked bloodless and had frequent fainting fits. I was constantly doctoring, but without any benefit, and I began to feel that my condition was hopeless. One day a friend asked me why I did not try Dr. Williams' Pink Pills and mentioned several cases in which she knew of the great benefit that had followed their use. After some urging I decided to try the pills, and had only used them a few weeks when I began to feel benefited, and from that time on the improvement was steady, and by the time I had used about a dozen boxes of the pills I was again enjoying the blessing of good health. I cannot too strongly urge other discouraged sufferers to give Dr. Williams' Pink Pills a fair trial."  
 Dr. Williams' Pink Pills will cure all troubles due to poor, watery blood, such as anaemia, general weakness, indigestion, neuralgia, skin troubles, rheumatism, the after effect of a gripe, and such nervous troubles as St. Vitus dance and partial paralysis. Sold by all medicine dealers or by mail at \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**SYNOPSIS OF CANADIAN NORTH-WEST.**  
 Homestead Regulations.

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.  
 Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub Agency for the district in which the land is situated. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.  
 The homesteader is required to perform the homestead duties under one of the following plans:  
 (1). At least six months' residence upon and cultivation of the land in each year for three years.  
 (2). A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.  
 (3). If the father (or mother if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).  
 (4). The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.  
 (5). A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.  
 Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

 Deputy of the Minister of the Interior.

**YOUNG MAN MEETS DEPLORABLE FATE.**  
 Hands, Feet and Nose in State of Decomposition is Refused Admittance to Hospital.

**HUNTSVILLE, Friday**—A young Englishman of 19 years of age, named Phelps, who had no known relatives or friends in this country, died here under sad circumstances. He was brought to town from Burks Falls with his hands, feet and nose, in a state of decomposition as the result of repeated frost bites, in the hope that he would be admitted to the Huntsville Hospital. This institution, however, is now a private enterprise, the Government grant, having been withdrawn and the young fellow, having insufficient money to pay for an operation, admission was denied him. Finally, accommodation was secured for Phelps in a private house and a local physician gave him medical treatment, but it was too late, the youth dying a week after his admission to the house.

**WANTS PRESENT BACK.**  
 Love Lorn Farmer Claims he Was Deceived.

**REGINA, Sask., Friday**—An interesting case was commenced before Judge Prendergast in the Supreme Court on Saturday, in which the plaintiff, Malcolm J. McInnes, sought for the cancellation of the transfer of a quarter section of land made over to the defendant, Mrs. Isabella Getsman, of Minneapolis. The plaintiff, who is a farmer in Craik district, alleges he went to Minneapolis in 1906, where he met Mrs. Getsman under the name of Miss Margaret Rivers. Returning to Craik, considerable correspondence passed between the two parties, letters from the lady, which were read in court being of a specially interesting character.  
 Eventually in the belief that the defendant, whom he believed was a single woman, was going to marry him, McInnes made the transfer which is the subject of this action only subsequently discovering that the woman was already married and living with her husband.  
 Hearing of the case is being continued.

**THREE RIVERS, P. Q., Sunday**—Much interest is taken in the report that the Canadian Pacific Steamship Company is looking into the feasibility of making Three Rivers their terminus. P. R. Steamship Co. here.

**A MATTER OF ECONOMY.**  
 If the thousand and one things about the house that make money go fast—the little things that don't seem to count—were bunched together in one, it would not be so difficult to stop the leak. But they are usually such trivial things that it takes more than a sharp and ever-watchful eye to keep expenses down.  
 In flour for instance. We buy a flour that our grocer recommends. He doesn't know for what particular purpose we want it—and it sells pretty well—so he sends it to our homes. The flour may be good, but perhaps it takes a long time to knead. Or it may make more flour to make a batch of bread than it ought to. Or we may want it for cakes and pastry and it won't give the light appetizing cake, or short crust in the pie that we expect. Most of us have found trouble of this kind.  
 If we had time to compare one brand with another, some household leaks would be avoided, and some household tempers would disappear. There is a big difference in flour. Some flour turns out a perfect baking, some to do equally well for bread and pastry.  
 Bleached Flour—made from Ontario fall wheat and spring wheat, blended in just the right proportions—makes baking a pleasure, and is winning unexampled favor in the kitchens of careful housekeepers. It makes better bread, lighter cakes, more wholesome pastry and biscuits.  
 Note it, good housekeepers, and use Bleached Flour next time.
