Question of Ticket Selling Discussed by Trustees.

oard Decided to Enforce the Rule Against It.

Final Meeting of 1907 Board Held Last Night.

There was quite a lengthy meeting of he Board of Education last night, a ood deal of time being taken up in disissing a clause in the Internal Manment Committee's report which re-mended that Miss Jeanette Lewis granted permission to dispose of tickets in aid of the Children's Hospital in he Public Schools and Collegiate Instiute. Trustee Callaghan moved that the lause be struck out, and in doing so said hat for years the Board has rigidly nforced a rule that no tickets be sold in the schools. In this case the proceeds did not go direct to the hospital fund; the tickets it is proposed to sell are for erformances at a vaudeville theatre, He did not think it was wise to encourge children to go to theatres, particuarly as the parents of many of the chilren do not approve of theatrical per-

Trustee Bell said he was a member of the Internal Management Committee and allowed the clause to pass without objection, yet, at the time he did not altogether approve of it. Now that he had seard that citizens had objected to the sale of theatre tickets in the schools, he would vote against the recommendation. Trustee Grant said while he thought he role prohibiting the sale of tickets the rule prohibiting the sale of tickets in the schools was a good one, the present case was an exceptional one, and the permission asked for should be granted, he thought. Miss Lewis explained to him

Nearly all the Trustees present spoke for or against the resolution. Some who spoke for it, voted against it. Trustee Ward caused some merriment, when he voted against his own motion to adopt the report. The clause was struck out by a vote of 11 to 3. The three who voted to allow the tickets to be sold were Trustees Wodell, Grant and Hoiden.

There was a little discussion over another clause in the report, that of establishing a night school in the old Custom House for adults. Most of time members

Ottawa, Jan. 9 .- A discussion on in rigation in the west and consideration of the accounts of the Department of Marine and Fisheries occupied the bulk of the time of the House to-day. Three and a half hours were spent over an appropriation of \$129,000 by the department presided over by Mr. Brodeur, the Opposition making a concerted attack on the Minister of Marine and Fisheries on the ground of extravagance, particularly in regard to his expenses connected with the Colonial Conference.
