CROPS IN WISCONSIN.

A special despatch to the Chicago Inter-Ocean says that the Madison State Journal of Saturday

would publish on Saturday crop reports from all sections of the State. They indicate general dam-

sections of the State. They indicate general dam-age to all crops by the recent rains, followed by ex-cessive heat, and consequent rust, blight, lodg-ment, and rot of fifteen to twenty five per cent, better than the splendid grop of last year, and farmers can afford to lose that much and still have profitable crops. Winter wheat is nearly all har-vested. So is barley. The former is in fine condi-tion ; the latter modely coloured. Oats lodged, but are doing well. Corn is backward, but is now growing finely, and will be a fine crop if there are no early frosts. Rys good. There are indications of potato rot, in some places quite disatrons. On all lowlands ther crops are injured greatly, but on the uplands there is very little damage.

MOVEMENT OF BARLEY.

Receipts of barley at lake ports from the opening of the harvest year to the 20th inst., have amounted to 9,671,854 bushels against 8,408,842 bushels in the corresponding period last year ; receipts at Buffalo

and Oswego in the same time have been 6,249,545 bushels against 5,044,726 bushels last year; and thoseat seaboard ports have been 9,883,117 bushels against 6,864,509 bushels last year. We have here an increase of 1,262,962 bushels at lake ports; of 1,204,819 bushels at Buffalo and Oswego, and of 5,023, 527 bushels at seaboard ports. The export clear-ances from seaboard ports for Europe for the week ending on the 20th instant, were nil bush vs. 2,373 bush, the previous week, in-cluding nil bush from New York, and nil bush row Montreal; and for the last eight weeks 71,754 bush. The exports from New York from September 1st, 1877, to July 23rd, 1878, have been 3,453,672 bush; from Portland, 240,528 bush; from Boston, 9,564 bush; from Baltimore, 68,946 bush; and from Montreal, 805,166 bush; total, 4,577,-786 bush. The imports into the United Kingdom since Sept. 1, 1877, to June 29th, 1878, have been 12,375,080 cwts, vs. 12,099,388 cwts the corres-ponding period in 1876-7. The amount on passage for the United Kingdom July 4th, 1878, was 256,000 qrs, vs. 79,000 qrs at the corres-ponding date in 1877. and Oswego in the same time have been 6,249,545

WEEKLY REVIEW OF TORONTO WHOLE-SALE MARKETS.

> WEDNESDAY, July 31. PRODUCE.

The market has been very firm all week, and a heavy advance has been established in some instances. The quantity of either flour or grain offer ing has been very small and generally below the demand for it. This is due to the facts that stocks

have now run very low, and that receipts have been very small; the market can scarcely fail to be very quiet until the new crop has begun to offer. Crop reports have been somewhat less favour? ble of late, but it is tolerably certain that after all deductions have been made the total yield will turn out well. Stocks on hand here stood on Monday. wheat, 43,833 bush; spring wheat, 33,586 bush; oats, 17,510 bush; barley, 47,026 bush; peas, 6,496 bush; rye, *nit* bush; corn, 400 bush. WHEAT-The market has been fairly active for the season with offerings small and all wanted at an ad-vance. Fall has sold pretty freely in round lots at \$1.02 for No. 2 and 95c for No. 3 last week, and \$1.03 for No. 2 and 95c for No. 3 on Tuesday; and in car-lots at \$1.06 for No. 2 on Monday. No. 1 spring has been inactive because not offered to any extent; it sold an Indraday at 98c, but 2 to 3c more was sub-sequently bid. No. 2 spring has been fairly active with sales at 96c for. 0. no. 1 spring at 30.02 for.or. of Friday, Saturday and Monday. The market to day owas firm with sales of No. 1 spring at \$1.02 for.or. of 4,500 bushels of very choice outside at \$1.03; and of No. 2 fall at \$1.02 for. There have been only a few loads on the street where spring has sold at \$1. O ars-The supply has been small and prices have 1,121 3,648 346 2. Our prognostications at the commencement of the year with regard to the importance of this branci-of our export trade and its growth have already been fully borue out by facts. When the exports of live stock are totalled at the close of the season of navigation, the large trade Canada is doing in this direction will be still more evident; nor must fit be lost sight of that some of our Western dealers are shipping via United States ports.—Montreal Her. ald. -----Montreal Cattle Market Montreal Cattle Market. Morraat, July 29. There arrived at Point St. Charles during the past week 51 car loads of cattle for exportation and 19 car loads for sale on this market, more than a quarter of the latter being bought for the British market. To day 29 car loads of more of cattle for shipment to Britain were brought form the week and two car loads for sale on this market. Since the be-ginning of last week 14 double-decked and 19 single-decked car loads of sheep were brought to the city, all of which are to be sent to Britain. The supply of beef cattle in the city is almost exhausted and higher prices prevailed to day than have been paid for over a month. Only 3 car loads of cattle were offered at this market to-day ; 1 of these loads, 16 Nesd, were very choice steers belonging to F.W. Ritchings, of Rose Fill, and were sold to Ald. Mo-Shane for \$1,200, or about 5c per 1b. Mr. R. Dyer, of Parkhill, sold 18 cattle, weighing 20, 309 pounds, to S. Price, at \$4.65 per 100 lbs. Wm. Head received a car load of cattle from J. Head, of Galt, and sold 19 head at from 34 to 44 per lb. Joseph Hutchin-son, of Stratford, sold a car load of hogs to W. Mas-terman at a small fraction less than 5c per 1b. Three were only 19 head of beef critters offered at Viger market this furencon, all of them being of an in-ferior quality, but butchers were obliged to pay unusually high prices for them. The sates and last week. As to the nature of the de-mand, the native cattle were much more sought after than those of inferior grades, although there were some very fair Colosedors included among the latter. The general ruling has shown a decine all around, the falling off on natives being $\frac{1}{2}$ per lb., while the lower grades, being in large supply, have sold at $\frac{1}{2}$ per lb. lower than last week. Only two loads of milch cows have arrived, with no demand felt for milkers ; the range is \$30 to \$56 per head. YEAL CALVES-The supply has been liberal, with light demand ; sales fat 4 to 6c; fod, $\frac{1}{2}$ to 3c; and buttermilk, 2 to $\frac{1}{2}c$ per lb. SHERF AND LANES-Receipts, 14,800 head, against 18,400 head last week ; market rules steady at the following prices :-Common to fair, $\frac{3}{2}$ to 4 : fair to good, 4 to $\frac{4}{2}c$; and choice to extra, $\frac{4}{2}$ to 5c per lb., the latter being the extreme price. The mar-ket for lambs opened to a slow trade, and at prices a shade lower than last week; ruling, common to fair, $\frac{5}{2}$ to 6; fair to good, 6 to $\frac{5}{2}e$, and extra, $\frac{6}{2}$ to $\frac{3}{2}e$ per lb.
