**Windmill Barbados Super-Fancy Molasses**  
 It is the fruit juice of ripe, Golden Ribbon sugar cane—not crushed by steel, nor cooked by steam—but, as in days of old, it goes through wooden rolls with windmill's aid, and is cooked over the open fire in open kettles.  
 It takes 100 lbs. of this Golden Ribbon Cane to make one gallon of "Windmill" Barbados. Nature alone gives it its sweetness, flavour and colour.  
 Nothing added—nothing extracted. Full of the food elements that give heat, energy, and endurance, and well balanced with minerals, fruit salts, that give health to the blood and strength to the body frame.  
 Yet costs no more than common molasses, or compounds in which there is practically no food value.  
 No fancy cans to raise the cost—Sold in bulk only.  
 Be sure you get the good, old-process, "Windmill" Barbados—it savors of fruits and flowers of Barbados.  
 We guarantee Windmill to be absolutely pure and highest grade Barbados Molasses.  
 If not on sale at your grocer's, mail us his name.

## WOMEN OF MIDDLE AGE

May Pass the Critical Period Safely and Comfortably by Taking Lydia E. Pinkham's Vegetable Compound.

Regina, Sask.—"I was going through Change of Life and suffered for two years with headache, nervousness, sleepless nights and general weakness. Some days I felt tired and unfit to do my work. I gave Lydia E. Pinkham's Vegetable Compound a trial and found good results, and I also find it a very helpful Spring tonic and useful for constipation from which I suffer much. I have recommended Vegetable Compound to several friends, and am willing you should publish this."—Mrs. MARTHA W. LINDSAY, 810 Robinson St., Regina, Sask.  
 If you have warning symptoms such as a sense of suffocation, hot flashes, headaches, backache, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness, get a bottle of Lydia E. Pinkham's Vegetable Compound and begin taking the medicine at once. We know it will help you as it did Mrs. Lindsay.

## Canteen Profits May Be Referred To Arbitrator

Ottawa, Nov. 8.—Questions, which have arisen between the imperial and Canadian authorities over distribution of canteen profits, will probably be referred to an arbitrator. A number of points of difference have arisen, technical points concerning the nature of the original arrangement regarding disposition of the canteen profits, the valuation of stock in hand when the war was concluded and so forth. Agreement thereon will be necessary, however, before the exact amount of the profits made can be determined and a basis of division reached.  
 What the amount of profits will be cannot, therefore, as yet be stated with any degree of accuracy, but it is estimated that the Canadian share will be between one and two millions. The question of disposal will subsequently be taken into consideration by the dominion government.

## A Series of Talks On Music

By Prof. C. C. Laugher, Mus. Bac. Sarnia, Ont.

NO. IV.—Instrumental Accompaniment

Instrumental accompaniment means to accompany with the instrument, or as someone puts it, to add an accompaniment to an ornament.  
 We readily think of the piano as the general accompaniment for the singer of soloist.  
 The first mention of the pianoforte as an accompanying instrument was made in 1767 on the play bill of "The Beggar's Opera." Between the first and second act Miss Brickler was announced to sing a popular song from Judith, accompanied upon the new instrument by Mr. Dibi in London, June 2, 1767. John Christian Bach, was heard in a pianoforte solo, the first of its kind.  
 The purpose of the accompaniment is to support the principal part, it must be independent but should always be subservient to the chief part. An instrument such as the piano, harp, or organ may be used in accompaniment, even a chorus of voices may successfully carry an accompaniment part.  
 To acquire this art, the accompanist must have great care and judgment. He must not overwhelm the voice, but must assimilate with the quality of the voice, taking special care of the contrast. Too often we hear such an accompaniment that is so strong that the soloist is simply an occasional part, and the effect is very ridiculous.  
 We read that at the time of the old miracle plays the accompaniments were performed by a double lute, a harp, chord, a double guitar or two behind the scenes, simply to add musical effect, and even Wagner went back to the old way of hiding the orchestra.  
 Back in the days of 1800, Cavalli arranged instrumental effect of sighs and sounds of nature, such as the murmuring of the rivers, and the sighing of the winds.  
 Caccini, a great vocalist of Italy, in the sixteenth century, broke away from the old style composition of many voices and wrote for one voice only. These compositions he sung to his own accompaniment, playing on the Therobo, a pear-shaped instrument four feet long, with a number of strings of different lengths. Caccini met with great success.  
 The early musicians aimed only to devise means to combine music with poetry, so that the two arts should enhance one another, but when it is understood that the accompaniment to the recitative and solos were provided only with a figured bass from which to read and play, it was the accompanist at the harp, chord that must apply the details. This weakness and ineffective ness would make the music unendurable to a modern audience.  
 From about this time on, particularly in the matter of accompaniment, the resources of expression in music was becoming much enlarged and elastic, for the harmony was more richly developed and the tonality better understood. The modulation now came in as an additional means of effect.  
 Dr. Parry adds—"Where the words are thoroughly musical and the composer sensitive and skilful the music fits the words at every instant and makes the words glow with meaning."  
 Both Schubert and Schumann were very expressive in this form. Schumann's genius showed itself in his power to suggest unexpressed depth of feeling in a few lines. This piano accompaniment and postures to many of his songs intensifies this emotional atmosphere.

## Political Rumors

There is a great deal of discussion as to whom the selections will be when the two government portfolios are filled. One report, which has gained considerable circulation, is that Hon. Dr. J. E. Heberington, Speaker in the last Legislature is to be promoted to a cabinet position and may become provincial secretary treasurer, while it is said that D. W. Miersereau, M. L. A. for Sunbury county, will be the new Minister of Agriculture, if the appointment goes to one who is a tar...

## Alberta's Coal Production Much Greater

Alberta's coal production for 1920 will be thirty per cent in excess of last year's, it is now estimated by the Government mines branch. A total output of well over 6,500,000 tons is expected by the end of the year, as compared with 5,023,412 tons in 1919. There has already been mined for the nine months of this year to the end of September a total of 4,750,564 tons, the output for September alone being 618,093 tons.
