The philosophy on which Socalism rests is materialistic; its theory of human life is uhchristian. The lead. ers of this cult continually insist that man's universe is confined to this world, that he should think only of this life. They say in theory and in practice that this is the only world orth living for, that the next world is uncertain and unknowable. They believe that man's bappiness and sue cess are measured by the amount of good things he possesses here below.

Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatismthat acid condition of the blood which affects the muscles also.

Sufferers dread to move, espe after sitting or lying long, and their condition is commonly werse in wel weather. "I suffered dreadfully from rheur

but have been completely cured by Hood's Sarsaparilla, for which I am deeply grateful." Miss Frances Surre, Prescott, Ont. "I had an attack of the grip which lets me weak and helpless and suffering from rice-mattem. I began taking Hood Samaparilla and this medicine has entirely caree me. I have no hesitation in saying it saved my life." M. J. McDonala, Transon, Ont. Hood's Sarsaparilla Removes the cause of rheumatism—no sutward application can. Take it.

In other words, the view of man's origin' end distiny is perverted or obliterated. The rank and file of socialists are fast becoming inoculated with these opinions. It is plainthat men imbued with such notions are demoralizing associates, that such an atmosphere of thought and innuend is unwholesome and dangerious for Catholics, utterly at variance with what they are bound to believe and practise. As a consequence those who become radical socialists do not need to be read out of the Church. Experience teaches that sooner or later, of their 28 Fri 4 42 7 49 2 02 6 17 5 41 own free will and by the logic of 29 Sat 4 42 7 50 2 24 6 59 7 06 30 San 4 417 51 2 44 7 36 8 08 events and of consistency, they cease 31 Mon 4 417 51 3 05 8 10 8 58 to be Catholics.

Cobalt and Gowganda region, there are great revenues coming from the new possessions. Yet at Confederation and until now, these regions belonged as much to New Brunswick s to Ontario and Quebec. The Western provinces are or will be compensated by additions coming to hem. But New Brunswick, Nova Scotia and Prince Edward Island look out over their water boundaries and see no money coming to their treasury from the land of which until now they had a share.

Then there is the further question of the effect of this annexation upon the population of Quebec. Sir Wil frid has said that no one lives or will live in Ungava or the Quebec Labrador. But if mineral wealth shall be discovered there it will bring population. People live in the Yukon, Greenland has its inhabitants. The Newfoundland strip is occupied, more or less. If minerals are found in New Quebec, people

All of which means that since Quebec is the standard of representamembers those provinces which do not have such opportunities will lose representation if the existing basis is maintained. The point was taken by Dr Daniel and Mr Crocket last ession, when the question was before Parliament, Sir Wilfrid made rather light of it, contending that there could never be any population on the Quebec annex. Afterward Mr Stanfield moved an amendment Enter now. Full particulars providing that in any extension of on request. Wm. English Mammoth

Imported Direct from London, England.

Just arrived, a shipment of this Best of all Clovers. Many farmers have asked us why we cannot procure the Old English Mammoth Clover that used to produce such large crops years ago. Well, we find it difficult to get a really good sample of the Genuine Mammoth variety. Two years ago we imported a nice lot that sold readily and gave excellent results; last year we could not get a pound of Choice Seed, as the English crop was very poor, and the Seed could not be recommended. A lot of Chilian Red Clover Seed has been sent to Canada in recent years and sold as English Clover. No farmer should sow this variety; it is not at all suitable for this country. A guarantee that we have the Genuine Old English Mammoth Late Red Clover Seed is that a sworn statement to that effect accompanies the shipment. The Seed is large, plump, and very free from Weed Seeds. It is the finest quality of this variety that we have ever seen. Costs a little more than the Canadian variety, but the cost of the Seed is small compared with the increased yield of nutritious Hay produced. Only a limited quantity to offer. Write us for samples
