Subscribers Admonished. As we have not of late made any specific reference to the payment of subscriptions, we should be exceedingly pleased if our friends would give this matter practical consideration at this particular season.

Five hundred bottles of rye and Scotch whiskey were found by United States customs officials in a shipment of 17 barrels of fish taken from a Montreal train at St. Albans, Vermont. The liquor was concealed under layers of fish consigned to a Boston address.

The announcement has been made public at Kingston, Jamaica, that the delegates appointed from that colony to attend the Canada-West-Indies conference at Ottawa, will consist of the Hon. St. John Branch, K. C., Attorney-General, chairman; Hon. Robert Johnson, C. M. G., I. S. O., Collector-General, and the Hon. J. H. Phillips, M. L. L., St. Thomas.

Three men and one woman convicted last July of denouncing compatriots to German authorities during the occupation of Louvain during the war, were executed at Vincennes prison, France, a few days ago. Those who met death were Touque, Lominois, Herbert and Madame Aubert. Of twenty-eight persons tried last summer as "Lion informers," eight, two of whom were women were condemned to death. Three failed to appear for trial and were sentenced to death by default. Eleven received prison sentences ranging from one to twenty years, and six were acquitted.

A concert staged in the top floor offices of the Marconi building on William street, Montreal, was given on the night of May 20, for the benefit of an audience assembled over 100 miles away in the Chateau Laurier, Ottawa. Later in the evening a message was received from the Chateau that the concert had been heard, and congratulations were offered. The occasion was an experiment in wireless telephony, which has not so far been demonstrated in a public way over distances of more than a mile or so. By reason of an amplifier at Ottawa and more of the concert could be heard in Ottawa than in Montreal.

The St. John Exhibition Association is again going to hold a show and has fixed the dates at September 4th to 11th, inclusive. This will be the first Exhibition to be held in St. John since 1914, as the Exhibition plant has, for the last five years, been employed for military purposes. The Militia Department have just handed back the plant and have also paid over a substantial amount to effect the damage done by their occupation, so that the Association is in a position to expend more money than is usually the case, and therefore expects to make this year's show a distinct success in every way. In addition to some splendid free acts in front of the Grand Stand, contracts have been entered into that will make the Midway a more elaborate affair than ever. These contracts include some seven riding devices and about fifteen big tent shows; in fact, the Midway will, this year, resemble a first class Summer Carnival rather than the fakir's row of former years.

From Saskatoon, Sask., comes the following intelligence: High wheat prices will cause farm land values to double in Western Canada according to land men here, and this will result in the biggest immigration movement the west has ever known. "Settlers always come on a rising market," they say, "and news of increasing land values is really the only effective kind of publicity." A spirit of optimism, based upon present crop and price prospects, pervades the entire real estate business.

By agreement all the provision stores in Madrid were closed on the 21st, but customers were able to obtain food by way of side doors. The reason for the prevention of closing the front doors and drawing the shutters was the fear on the part of the authorities that the women who have been carrying out demonstrations might raid food shops and seize provisions. Even the street vendors disappeared today, not desiring to run the risk of having their carts raided by women, as was the case Thursday during the food demonstration. Bread was available today in a somewhat greater quantity than Thursday, but it was still insufficient to provide for the needs of the populace.

Commander Hove of the Naval Services is leaving Canada shortly for Great Britain to arrange for bringing out to Canada the ships presented by the Admiralty as a nucleus for the Canadian Navy. They will consist of one cruiser and two destroyers. As some repairs are necessary they will not arrive at Halifax before July or August. The ships will be used for training purposes for the naval cadets and will hold together the nucleus of the naval organization pending the adoption of a broader scheme after the Imperial Conference. It is quite probable that the ships will be quartered in Halifax in summer and in Esquimaux in winter. Climatic conditions at these points permit of a continued training.

The Prince In New Zealand

From Christchurch, New Zealand, under date of May 17th, comes the following: The Prince of Wales arrived at Christchurch on Friday night by train and coach from Hokitika. He climbed on foot to Arthur's Pass at the summit of Otira Gorge, outdistancing the members of his staff. The Prince is in hard physical condition due to constant exercise. He enjoyed the magnificent scenery around Otira, looking out upon the snow-capped peaks of these southern Alps. The Prince received another wonderful welcome at Christchurch, with the city brilliantly illuminated and the entire population cheering in the streets. He stays at the Christchurch Club during his visit. The royal visit provided plenty of excitement at the meeting at the Canterbury Jockey Club at Riccarton racecourse, just outside of Christchurch on Saturday. On the invitation of the President of the Jockey Club the Prince acted as starter for the Marlborough Stakes, the chief race of the day; then, mounting a good-looking hunter provided for his use by the racing club, rode along the course, accompanied by Admiral Halsey and Mr. Boyle, president of the club, all of them mounted. The Prince, seeing the newly erected solid brush fences, four feet nine inches in height, on the steeply sloping course, was tempted to have a jump. His horse flew the first fence, the Prince sitting him like a champion, as the club official said. Afterwards the Prince expressed his desire to ride over the whole steeply sloping course at once, but Admiral Halsey and President Boyle dissuaded him. However, the Prince, tempted by one more jump, went forward. His horse balked, but the Prince took him back and put him at the jump again. The horse pricked up his ears and looked as though he would take the jump, but at the last moment refused, swerved violently along the wing fence, at the same time putting his head to the ground, pulling the Prince out of the saddle. The Prince shot over the horse's head and fell to the ground, partly against the wing fence. He rose to his feet quite unharmed, remounted his horse and rode back to the stand.
