

GENTLEMEN,—Our shelves are now replete with the choicest goods that the West of England can produce. All parts of Old England are famed for the excellence of their goods, but more especially the West, and, as regards that indescribable "thing" called style we know how, and can give full expression to that elusive quality. We please both young and old. You can have your choice of either English or American cut. Personal supervision given each order. Give us a trial and we have a customer. Thirty years experience in the tailoring line.

30th ANNUAL REPORT
Of the Cathedral Branch of the
Church of England Tem-
perance Society.

To the President, Officers and Members of the Cathedral Branch, C. E. T. S.

The undersigned, on behalf of the General Committee, presents the Thirtieth Annual Report as follows: Your Committee, on retiring from office, wish to return thanks to Almighty God for a year of singular blessing and great progress.

MEMBERSHIP.

During the past year 115 persons signed the pledge; 111 took the Abstaining, and 4 the General Pledge; of these 106 entered our ranks; 84 being males and 22 females. The average age of the new members is 25 years. Among those who have joined during the year, the male members greatly outnumber the females, and are most keen in bringing in others. This is a good sign, as in this country, at least, men are more exposed to the temptation to drunkenness than women. During the year the Branch has renewed affiliation with the Society in England. A Cradle Roll of parents has been instituted, and a number of parents have pledged themselves to bring up their children in the paths of Temperance by encouraging them to become total abstainers.

The following is a statement of the number of members of the Society:—

	Male	Female	Total
Subscribing members	160	59	219
Non-subscribing	35	41	76
Total Adults	195	100	295
Band of Hope	48	67	115
Grand Total	243	167	410

MEANS OF GRACE.

We believe that these results, the victory of our cause, the strengthening of our Society and all other evidences of progress are due, chiefly to the regular offering of the Sacrifice of Praise and Thanksgiving every month at our Corporate Communion; also to the continual intercession which has gone up to the Throne of Grace for our objects, not alone from members of our own Society, but also from those, both within and without our communion, who have the cause of Temperance at heart. The attendance at the Corporate Communion has been rather better than last year; but what might we not accomplish if only all the members would fully recognize their obligation in this respect? The Society's Annual Corporate Communion was held on the first Sunday in Lent at the Cathedral, and there was a good number present.

SOCIAL EVENTS.

In April the Band of Hope Tea and Entertainment took place, which was well attended. In October last the Total Abstinence and Benefit Society celebrated its Jubilee. On that occasion this Society was represented by the Patron, the President and Secretary. The latter conveyed to the T. A. & B. Society our hearty congratulations. A grand concert, under the auspices of the C. E. T. S., was held in November which drew a large and appreciative audience. During the Christmas season the Society arranged a re-union for its members, who spent a very enjoyable evening. Early in January a sociable, with candy and fancy goods for sale, proved a success in every way. The system of holding monthly teas, inaugurated last year, was successfully continued. These events show that the Society has always a multitude of friends on

A BROKEN-DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is **increased vitality.**

VITAL STRENGTH & ENERGY

to throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly secured by a course of the celebrated life-reviving tonic.

THERAPION No. 3

is a new and powerful medicinal preparation, so simple and so effective, that it is the only medicine that can be taken in any form, and at any time, and which is equally suitable for all constitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement, whose main features are those of debility, that will not be speedily and permanently benefited by this new and powerful restorative essence, which is destined to cast into oblivion everything that had preceded it for this wide-spread and unnumbered class of human ailments.

THERAPION is sold by Chemists and Druggists throughout the world. It is in England, 12 and 46. Purchasers should see that the word "THERAPION" appears on British Government Stamp (its white letters on a red ground) affixed to every package by order of His Majesty's Hon. Council, and without which it is a forgery.

THERAPION may now also be obtained in Drages (Tinctures) form.

whom it can rely for help and sympathy.

REGATTA.

At the Regatta of 1910 a boat's crew from the C. E. T. S. contested in the "Society" Race, rowing in the "Blue Peter." Although the crew did not win the race they made a close second. At the public meeting of the Branch held on September 22nd, the members of the Regatta Boat's Crew were presented with silver C. E. T. S. medals, the gifts of certain members and friends of the Society.

ADDITIONAL EQUIPMENT.

The piano in the Parish Room not being suitable for our meetings, the Society invested in a new one. The cost of this grand instrument was raised by a series of entertainments, including the proceeds of the monthly teas. The Society also possesses a large quantity of crockeryware and other equipment necessary for the serving of refreshments. A large handsome cupboard has been provided in which this and other property may be kept.

NEW CLUB ROOMS.

In the course of the annual sermon, preached in the Cathedral on Quinquagesima Sunday, February 6th, by His Lordship the Bishop, while dealing with the work of the C. E. T. S., locally, he referred to the necessity of securing a headquarters for the Society with a club room for the male members. He suggested fitting up an unfinished part of the Synod Building for that purpose which had remained unoccupied. At the earliest possible moment an effort on the part of the chairman, promptly and unselfishly made to raise the necessary amount, resulted in a few days in a sum being subscribed of over three hundred dollars for this object. On Saturday, February 10th, the first nail was driven. The men of the Society willingly gave over 1-100 hours free labour, thus helping and facilitating the work, so that on March 17th the rooms, nicely ceiled and painted, were formally opened, clear of debt, by His Lordship the Bishop. There were present the Premier, several members of the Legislature and prominent citizens, representatives of the various Temperance bodies, friendly societies, etc., and a good number of C. E. T. S. members.

The club rooms comprise a recreation room, 35 x 24 feet, with a billiard table, bagatelle board, two game tables and a splendid disc gramophone with 72 records, the last named being the gift of Mr. N. Outerbridge, who is deserving of special mention. The reading room is about 20 x 20 feet and contains a literature table, coal writing desk, wash basin and library. There is also a refreshment room fitted with a gas stove and crockery. A spacious lobby is at the entrance, and the whole suite of rooms are lofty, well-ventilated and lighted with gas.

THE LICENSING BOARD.

A vigorous controversy with the Licensing Board occupied a good deal of our time and attention during the past year, and aroused a strong Temperance sentiment. The question of certain licences, which the Board in the opinion of the Society had granted illegally, was taken up fearlessly by the Branch; and when the continued discourtesy of the Board went beyond all reasonable limits, the matter was placed in the hands of the attorney General. He instituted proceedings and the test case taken against one of the licences fell through on a technicality; but it is to be hoped that the incoming committee will continue to urge for a decision or ruling of the Supreme Court.

TEMPERANCE LEGISLATION.

At the same time it was felt that the Licensing law needed amendment, and resolutions directed to Temperance reform were unanimously passed at the C. E. T. S. public meeting in the Synod Hall, on September 22. Later on this was followed by a large and enthusiastic Temperance meeting, held in the British Hall, on Sunday, January 23rd, over which His Lordship the Bishop presided. The speakers were Rev. J. Bell (chairman of the Branch), Rev. C. Hackett (Methodist), and Rev. J. Thackeray (Congregationalist). At the close of the C. E. T. S. resolutions were unanimously endorsed and a committee was appointed to put the matter in shape for legislation. A petition was drawn up, and presented to the Assembly on February 2nd, within a week of the opening of Parliament, when members of both parties of the Legislature spoke and pledged their support. A Bill was introduced into the House

Family Physician Said Incurable

She was cured completely by Dr. Hamilton's Pills. A Terrible Experience with Indigestion.

Another example of the marvelous merit of Dr. Hamilton's Pills comes from Kingston where Mrs. E. V. Holton was snatched from the grave and restored to sound health by this wonderful medicine. "Three weeks ago I was taken suddenly ill. My head throbbled and ached and I became so dizzy that I had to go to bed. There was a terrible feeling of weight and fullness in my left side and all the region of my stomach and liver was sore even to touch. I was in a terrible state—had no appetite, in fact I was afraid to eat because of the suffering I had to endure after meals. I got so bilious and had such pains across my eyes that I could scarcely see. My doctor said I had incurable indigestion.

"As a last hope I used Dr. Hamilton's Pills, I saw clearly they were doing me good and continued the treatment. My appetite and strength gradually returned—my color improved and day by day the stomach and liver derangements were less troublesome. All symptoms of biliousness and indigestion have now passed away. I am cured by Dr. Hamilton's Pills."

The same medicine that so wonderfully cured Mrs. Holton will cure anyone else of biliousness, constipation, indigestion, headache, poor color and stomach trouble. Get Dr. Hamilton's Pills to-day—refuse any substitute, 25c. per box, or five boxes for \$1.00. By mail from The Catarhazone Company, Kingston, Ont.

of Assembly on March 16th, embodying the resolutions with one additional clause, namely that relating to C. O. D., and passed both Houses without division.

The provisions of the new Act, which is now in force, are as follows: Reduction of the time public houses may remain open, which is now from 9 a.m. to 9 p.m.; abolition of credit system for liquor consumed on the premises; penalizing the sale of intoxicants on the cash delivery system in Local Option Districts. A further section dealing with future licenses as to the arrangement of bar-rooms and the closing of all back and side entrances will apply to all new licensed premises.

FINANCES.

The following table shows the financial standing of the Branch:—

Fund.	Income.	Ex. Cr. B.
General Fund	\$171.71	\$161.73
Emerg. Fund	769.94	712.45
Club Fund	19.13	17.00
	200.78	191.18

Tl. Adt. Funds \$958.78 \$891.18 67.60
Band of Hope... 30.83 6.26 24.57

Grand Total \$989.61 \$97.44 92.17

The extraordinary expenses in connection with the purchase of the piano, the fitting up of the club rooms, and the Local Option campaign have caused strenuous efforts to be made in order to meet all liabilities. The total income is a record one, amounting, as shown above, to \$989.61. The Society starts this year with a clean sheet, everything having been paid for, no debts outstanding, and a creditable balance in hand.

THE CHAIRMAN.

Before concluding this report, the committee wish to mark their appreciation of the good work done by our Chairman (Rev. James Bell), who, humanly speaking, has been the life of our Society. In every matter affecting its welfare he has taken a most enthusiastic interest, and much of our success is due, under God, to his self-sacrificing labours and rare energy. To him is due the inception of many of the forward moves of the Branch during the past year.

CONCLUSION.

The thanks of the Society are due to the many friends who have helped us financially and in other ways. Especially have we to thank the members of other Temperance organizations who have stood loyally by us in the fight for Temperance Reform. We also tender to the Press of the city our hearty thanks for many kindnesses during the past year.

In conclusion your Committee would ask the indulgence of the Branch for any short-comings during its term of office.

Respectfully submitted,
ROBERT GEAR MACDONALD,
Hon. Sec.

Poisoned by Pineapple

New York, March 29.—Mrs. Helen M. Baker, a widow, living in Brooklyn, died yesterday as the result of a pericarditis of pineapple she had been eating entering her thumb.

The wound was a slight one, but in half an hour her hand was swollen. Her arm then became inflamed, and turned black, and green. A physician was called in, but the swelling spread to her body, and the woman was soon in great agony, and later died.

The doctors believe the pineapple was infected with some deadly West Indian poison.

The Maritime Dental Parlors

176 Water Street, St. John's, Nfld.

THE MARITIME DENTAL PARLORS recognizing no distinction in work, or prices, but the best, are endorsed by patrons who visit them in throngs every day.

The Maritime Dental Parlors are established here permanently, have a long lease of the premises they occupy, and will continue to give faithful, conscientious service.

The Maritime Dental Parlors appreciate the confidence shown by the public, and will ever aim to provide high-class Dentistry at reasonable prices.

The Maritime Dental Parlors have spent over \$500 in the city of St. John's, besides \$200 already saved to the people by reduced prices, an institution worth considering as a business proposition.

The Maritime Dental Parlors hold to the motto, "Live and let live," and that the greatest number may have the greatest good. First-class Dentistry are quoted at these prices:—

- Teeth extracted without pain 25 cts.
- Teeth extracted and Full upper or lower Set (\$18.00 value) supplied \$12.00
- Gold Crowns 6.00

All other Dental work and operations at correspondingly reasonable prices. Expert service.—Best materials.
