BRITISH OFFICIAL.

LONDON, Oct. 3. Shortly before dawn the enemy bombarded our positions between Tower Hamlets and Polygon Wood. Afterwards his infantry attempted an advance. Our artillery opened fire vigorously and on a great part of the front the assault broke down before reaching our lines. In the area immediately north of Menin Road where a few of the enemy succeeded in passing through the barrage they were completely repulsed by our infantry. Our positions are intact. There has been great artillery activity on both sides during the day east of Ypres. Yesterday the weather was again misty, despite which much successful observation was done. Many photos were taken, some showing damage by our bombs. Eight tons of bombs were dropped on various targets. Hits were observed on three aerodromes in Courtrai area and near Cambrai. Huts and dumps near Donal sidings and at Roulers were also successfully attacked and the enemy generally repulsed. Our fighting airplanes attacked at long distance. Six German machines were brought down and four others driven down out of control. Six of ours are missing.

BRITISH POSITIONS INTACT.

LONDON, Oct. 3. An attack by the Germans this morning between Tower Hamlets and Polygon Wood, following a vigorous artillery fire, was repulsed either by barrage or British infantry. According to a report from Field Marshal Haig to-night all British positions remained intact.

RUSSIAN OFFICIAL.

PETROGRAD, Oct. 3. To-day's official statement reads: There were fusillades on the various fronts. On the Baltic Sea on Monday night the enemy undertook several air raids on Oesel, dropping a few bombs which set fire to one of the magazines. Explosions followed, and several officers and sailors who were extinguishing the fire, perished. As reprisals our bombers dropped bombs on camps on the Courland coast. On Monday enemy trawlers appeared in the Irbe Channel. They were repulsed by our coast batteries. Enemy hydroplanes again tried to approach Oesel, but our airmen forced them to turn back and drop their bombs in the sea. On the southwest front we had three aerial encounters with enemy machines. Our giant airplanes of the Murovnetz type dropped bombs on the village of Korostev, northwest of Hussynyn.

ON THE ITALIAN FRONT.

ROME, Oct. 3. (Official.) At dawn yesterday the enemy attacked our positions on the western slopes of Monte San Gabriele. The attack failed completely. The assaulting company was destroyed, and the battalion following it was caught in turn under our batteries and dispersed. One officer and 79 men were taken prisoners. On other parts of the Bainsizza Plateau front we captured some additional prisoners and three machine guns. Activity in the air was very lively during the day. One of our squadrons bombarded the railway station of Grabova last night, and there were two successful raids on military objectives at Pola, which were bombarded with four tons of projectiles and badly damaged. Two enemy machines were brought down by our airmen.

ACTION TAKEN AGAINST KAISER.

LONDON, Oct. 3. The action brought by Prince Friedrich Leopold against Emperor William and Count Von Eulenberg, the Prussian Minister of the Household, as a protest against the restraint placed upon him, came before a secret committee at Potsdam yesterday, according to an Amsterdam despatch to the Exchange Telegraph Co. All the efforts made to force the Prince to renounce his action proved abortive. The decision of the Court will not be published. According to an announcement made in the official Gazette of Berlin on August 10th, Prince Friedrich Leopold of Prussia, who is 22 years old, was charged by Count Von Eulenberg, with extravagances, and was placed under the guardianship of Capt. Von Heyden, the Prince's military escort.

FEARS THE CARDINAL.

LONDON, Oct. 3. Belgian newspaper correspondents announce, according to a despatch to the Exchange Telegraph Co., that General Von Falkenhayen, Governor-General of Belgium, received a request from the Vatican to permit Cardinal Mercier, Primate of Belgium to visit Rome some time before Christmas, on an important political errand. General Falkenhayen is understood to have replied he could only grant passports to the Cardinal on the Primate's undertaking not to misuse his trip for the purposes of anti-German propaganda.

OPPOSED TO NEW FATHERLAND PARTY.

AMSTERDAM, Oct. 3. Dr. Bernhard Durnberg, former German Secretary to the Colonies, in an article published in the weekly Deutsche Politik, takes a stand against the new fatherland party, which he treats of as a harmful evolution of would-be patriotism. A stream of loyal messages have been sent to the Emperor, he remarks in the course of his article, as though on word of command, in which President Wilson's answer to the Pope is stigmatized as an attempt to drive a wedge between the Government and the people, as an effort to sow discord and as a proclamation of war on the Hohenzollerns. I have vainly tried, Dr. Durnberg adds, to find such things anywhere in President Wilson's note. Dr. Durnberg argues further that too much political capital has been made of these messages and the acknowledgment of them, of which he characterizes as grist to the mills of the blatant wire pullers, but which had nothing in common with the feeling of the great majority of the plain German people, who do not shout their loyalty from the rooftops. The chief aim of German pol-

WINSTON CHURCHILL TALKS.

LONDON, Oct. 3. Winston Churchill, Minister of Munitions, speaking at a luncheon in London to-day, said it was too early to say the submarine campaign had been defeated, but it was not too soon to say that this vital attack on the country had been checked, even repulsed. The capacity of the country to wage war, declared the Minister, was being impaired. Armies had been supplied on an ever-increasing high level of equipment and reserves of food were greater than before the attack began. During the 23 weeks of the present offensive the tonnage of shells hurled against the German positions had doubled that of the whole Somme battle, while during the last culminating week it had been four times that of the same period in the Somme operations. In the new year, unless some extraordinary developments took place, he said, the power of the British artillery would undergo another great lift.
