PYORRHEA.

Pyorrhoea is the most destructive, the most difficult to treat, yet one of the commonest of all the diseases of the teeth. It is present in the mouths of countless thousands of adults who fondly think their teeth are in perfect condition. It progresses slowly, and in its early stages, painlessly. The gums become soft and bleed easily, then they grow sore and become inflamed. Pus forms at the roots of the teeth and they loosen in their sockets. When the disease reaches this stage it affects the general health and usually extraction is the only remedy.

IDEAL - Arcola Radiator - Boiler
The ideal heat for small homes!

Gives even warmth in whole house—and at small cost

This hot-water heating plant gives healthful warmth to all rooms and requires no cellar or water pressure. Boiler serves as radiator for room in which it stands. Its surplus heat warms three or four other rooms through water circulating through inconspicuous pipes to radiators. Outfit of indestructible cast-iron requires little attention and coal. No danger of fire.

Estimate gladly made for you without obligation.
