

CITY OF ST. JOHN'S

St. John's Municipal Council. TENDERS.

Tenders, addressed to the undersigned, marked "Tender for Lead," will be received up to Thursday, September 6th, at 3 p.m., for supply of Five Tons Half Inch Lead Pipe (2240 lbs. to the ton) 6 lbs. to the yard, c.i.f. duty free.

Lowest or any tender not necessarily accepted. Quotations in currency.

J. J. MAHONY,
City Clerk.

Here's Good Soap.

You cannot use any better soap than the pure white floating Ivory. For years Ivory has been the choice in many millions of economical homes. Ivory is as good as any toilet soap you can use, yet it costs much less than most toilet soaps. 5, 10 and 15 cents a cake all stores.

MINARD'S LINIMENT FOR FALLING OUT OF HAIR.

SPORTOGRAPHS

A.A.A. MEET TO-NIGHT.
Members are reminded of the special meeting to-night at Mr. W. J. Higgins' office at 8 o'clock to make final arrangements for the Championships on Wednesday.

NEW ATHLETIC GROUNDS.

The Principal of Spencer College, Miss V. Cherrington, is a great believer in outdoors for athletes, for girls. With commendable foresight she has had during the holidays, the grounds surrounding Spencer Lodge, Forest Road, nicely planned, and a tennis court, etc., laid out for games of tennis, croquet and clock golf. The grounds are now open and ready for use and the pupils of Spencer College are invited to use them. Ex-pupils or "Old Spencerians" are also invited to make use of the grounds during school hours so as not to debar pupils their use after classes. Rubber soled shoes must be worn and balls and rackets will be loaned free by the Spencer Lodge principal. These playgrounds are now open and will be a great convenience for the Spencerians past and present and assist in cultivating good health so much to be desired by everybody. Next month Miss Cherrington hopes to hold an "At Home" at Spencer College, so parents and others may meet the teachers and inspect the new grounds.

O'TOOLE'S MANAGER IRATE.

Editor Sportographs.
Dear Sir,—In last evening's issue of the Telegram, you stated that "in spite of the most elaborate precautions for a secret tryout two well known athletes had been so unkind as to clock O'Toole over the full 10 mile course and get his time as 54.10." This is truly wonderful, seeing that O'Toole stopped on the road (without the knowledge of your athletic friends) for over a minute to repair some of his running tops! I may say that our "elaborate precautions" consisted of driving out to start about five o'clock, and before going out I told several persons (including Fred Phelan) that O'Toole was to run the whole course. No doubt this was "radio-ed" pretty promptly; and if the other Pinkerton who was on our trail can shoot the puck like he "shot the bull" yesterday, as regards the time supposed to be made by O'Toole, then he is due for the big league this winter. However, for the information of any of the sporting public who may be misled by the time made by O'Toole as given by you last evening, I will say that I have timed O'Toole in all his trials with a good reliable watch which has been checked by Mr. A. McNamara quite recently, and O'Toole has never run 10 miles in 54.10 or anything near it. Remember his name is O'Toole not Alfred Shrubbs. Finally, I would advise your two athletic friends, especially as they are young in the long-distance game, to dispense with their ingersolls and buy a real watch.

Yours truly,
S. P. CULLEN.

NUMEROUS ENTRIES.

Mr. McKenzie had a busy time this forenoon receiving entries for the A.A.A. Sports. The Guards have a heavy list while the St. Bon's have also the card well covered. The C.I.B. are bidding strong also, and it is evident that the bidding on Wednesday for the coveted Hayward Club Trophy will be most exciting.

NEW WORLD RECORD FOR MILE.

Paava Nurmi established a new world's record for the mile at Stockholm on Aug. 24th when he did it in 4.10". N. S. Tabar of Philadelphia was the original holder when he ran the mile distance in 4.12" in 1916.

A MODERN MERMAID.

Very few girls can have the strength and endurance of Miss Mercedes Gleitze, who gave such a wonderful exhibition of swimming a few days ago. She swam in the Thames for

ten and three-quarter hours, covering a distance of about twenty-seven miles, and just failing to break the world's record—a wonderful performance for a young girl. What makes this achievement all the more remarkable is the fact that Miss Gleitze, who works in a London office, appeared as usual at her place of employment on the morning after her strenuous swim.

Miss Gleitze whose ambition is to swim the Channel, is slim and by no means muscular in appearance. Many jokes are made about the seaside girl's reluctance to spoil her pretty bathing costume by going in to bathe, but how many men could equal this water nymph's achievement? Miss Gleitze is twenty-three years of age.

WEIGHT EVENTS.

All the local Lions' Strongforts turned out en masse at Ryan's Field last night to have a go at the Hammer Throw and Shot Put. Of the beginners John Howlett made the best showing, reaching within two feet of the distance obtained last night by W. Cosfield, the present champion. Others also did remarkably well, and with three or four practices available before Wednesday's meet, should make appreciable progress. Both weights are brass shells lead tied, to 16 pounds, stamped with the official Olympic Games Committee's Seal, and made to the order of the International Amateur Athletic Federation, Amateur Athletic Union of the World, and Inter-Collegiate A.A.A. They are of exactly the same style and type as will be used in the World's Olympic, to be held at Paris next year.

LAST NIGHT'S GAME.

B.I.S. 3; Gaelic 1.

Promptly at seven o'clock last evening the Gaelic and B.I.S. teams began their battle in the fight for honours in the Junior League. The Gaelic won the toss and elected to play with the wind. Play was about evenly divided in the beginning, and the ball was from end to end when Brown obtained control and after a clever bit of play passed beautifully to Galway, who registered the first tally for the game. On the ball being centred the Gaelic pressed their opponents' goal with the result that their efforts were rewarded when Dalton equalized. For the balance of the first period no further scoring resulted. Without any rest the teams changed ends when the B.I.S. immediately brought the ball to their opponents' territory, where a scrimmage took place in the front of the goal which resulted in the B.I.S. again scoring. From this on the Gaelic appeared to go to pieces and shortly after Buckingham scored a beauty on a drop from just outside the penalty area. For the balance of this period the B.I.S. undoubtedly had the best of the play and only the Gaelic goalkeeper saved his team from further defeat. McGrath the B.I.S. centre half played a star game and was a big addition to his team. The Gaelic changed the position of their players too often to be effective. The game was a good one from a spectator's standpoint and showed an improvement over the brand of football played in the beginning of the series.—News.

Monday for the Biggest Production Yet Seen in Newfoundland

MANSLAUGHTER

In Ten Parts--STAR MOVIE

TWO SHOWS AT NIGHT. ADMISSION: 30 CENTS.

Matinee Every Day. Admission 10 and 20

NOTE—The Management wishes to state that car owners may park their cars, as usual, on both sides of Henry Street, but no doubt a traffic constable will be on duty at the corner of Dicks' Square to guide motor owners, and all who can be asked to be in their seats for the first performance. This is beyond the shadow of a doubt a most stupendous production. Don't Miss it.

TO-DAY'S BEST LAUGH.

Doctors are all for sport, and often indulge in it themselves. But it frequently happens that they are more proficient at giving advice than taking it.

A Harley Street specialist once accepted an invitation to join a house party for a little shooting. When he returned a privileged butler asked him whether he had enjoyed himself. "Oh, yes," replied the doctor.

"Kill much, sir?" inquired the butler. "No, hardly anything," admitted the doctor.

"Ah, well, sir," consoled the butler, "it's nice to have a change."

Try a "Peach Melba" or "Peach Fancy" at the BLUE PUTTEE. If you are not one of our regular patrons, you have yet to realize how delicious ice cream can be when properly made and daintily served. Our special dishes would charm the jaded palate of Epicurus himself.—sept 1st

34th Anniversary.

HARBOR GRACE CATHEDRAL, DESTROYED BY FIRE 2nd. SEPTEMBER, 1889.

H. F. SHORTIS.

To-morrow, 2nd. September, will be the 34th anniversary of the destruction by fire of the Cathedral of the Immaculate Conception one of the most beautiful architectural monuments in British North America and probably on this side of the Atlantic. To give a description of the magnificent edifice is beyond my power, although I had full details some years ago, but they were unfortunately destroyed in the great fire of 1892. It was the pride and glory of all Newfoundlanders, and no person can imagine the grief of all Harbor Graceans, both at home and abroad, when it became known that the famous ecclesiastical monument was no more. The instability of all things human must ever engage the profoundest reflections of mankind. It furnishes a fruitful theme for the observation of the historian, and a text for the most impressive lessons of the preacher. There is no sublimer passage in the writings of our greatest poet than that in which he speaks of:—

"The cloud-capped temples, the great globe itself,
Yea all which it inherits shall dissolve,
And like this insubstantial pageant faded,
Leave not a rack behind."

The impassioned appeals of the orator "which wielded at will the fierce democracy," the finest creations of the poet, the almost breathing marble of the sculptor, the chef d'oeuvre of the painter, the proud temple of the architect, even though they may have survived the changes

of nature, or have escaped the ravages of passion may yet, by mere accident perish in one brief hour. The destruction of the Immaculate Cathedral, Harbor Grace, affords a most striking illustration of this melancholy truth. We have only a memory of its marble walls, its carven pillars, its seven altars, or its lofty dome. The splendour of its dome modelled after the greatest conception of human genius—St. Peter's, Rome—is now only a remembrance as well as its altars of marble and gold, and thus passed away the magnificent building raised to the honor of the Most High, and which Newfoundland, and especially Harbor Grace, was justly proud. It was commenced by Bishop Dalton in 1863, carried on by Bishop Cartwright, completed by Bishop MacDonald and destroyed by fire September 2nd, 1889.

Coastal Boats.

GOVERNMENT.

Argyle held at Argenta on account of fog.
Clyde left Lewisporte 8.40 a.m. yesterday, on Notre Dame Bay route.
Glencoe held at Argenta on account of fog.
Home. No report since leaving Humbermouth.
Kyle left Port aux Basques at 11.35 p.m.

Sagons passed Bell Isle 6 p.m. Thursday.
Malakoff left Clarendville at 8 a.m. Portia left Seldom at 6 p.m. yesterday. She is due in port sometime to-night.

The Government Coal Supplies.

In connection with the proposed coal company which was said to have intended to supply orders for Government institutions, we understand that a solicitor has been appointed to take proceedings for breach of contract on behalf of the British suppliers. Several prominent individuals are said to be concerned in the case, but as yet no definite action has been taken.

Jackie: "Does your father know anything about music, Tommy?"
Tommy (whose father is a policeman): "Yes."

"Well, what does he know?"
"He knows how many bars are in a beat, for I've heard him mother so."
