#### Cheese Aged by Electricity

A Dutch electrician in Rotterdam has hit upon a unique way of aging cheese. If you are going to have a party, for instance, and you do want some nice old cheese, go right ahead and make it fresh, and then apply electricity.

It seems that if currents are passed through a fresh cheese for twenty-four hours, that the cheese at the end of that time is just as good as old.

Later on much is expected from this in the way of being able through electricity to give any cheese any age or any taste that is required.

#### Henry Ford, the Detroit multi-millionaire automobile manufacturer, purposes distributing \$10,000,000 among his employees. Mr. Ford is true to his name. In the dictionary, ford means "to come across."

Jackrabbits appear on the menu cards of New York cafes as short grass deer. The flavor is much the same, but you would scarcely recognize the price.

#### Making Home Happy

The husband has something to do to make his home a happy one, as well as the wife. When she tries to please the one she loves best of all in the wide world—the one she clings to, though she must leave father, brothers and sisters, and many loving friends for his sake, and perhaps endure hardships never before thought of—what harm will it do him if he sometimes gives her proper need of praise? A married woman loves the attention of her husband just as well as the young lady does her lover; and if she is a true wife she certainly is just as deserving of it. And if all wives received this kindly sympathy, which is truly their right, there would be fewer sorrowing hearts and sad faces in the world than there are now.

#### From Old Subscribers.

Daniel Rundle, Shebo, Sask., writes:—"Please find enclosed \$1.00 for a year's subscription to the Guide-Advocate. It is as good as a weekly letter, I believe better, for a person gets the news from the whole district when the paper reaches here. I wish you a prosperous year."

James McClure, Hartshorn, Alta., Feb. 17th.—"Please find enclosed one dollar (\$1.00) for renewal of the Guide. The weather here is pleasant although for the past two weeks it has been 40 below zero. I see by the Guide, Watford is improving fast and I wish you and the town prosperity, in the passing year."

Friend—So your husband has been deceiving you, eh? Mrs. Henpeck—Yes, the wretch! I used to give him a dime for his car fare every day, and I find he's been walking to the office and spending the money.—Life.

They had broken a wishbone together. "What was it you wished?" laughed she. "I wished that you'd let me kiss you; Now what was your wish?" said he. Her eyes fell—she paused a moment, while her blushes deeper grew. "My wish was," she prettily stammered, "That what you wish'd would come true."

"What makes you so late?" asked his mother. "The teacher kept me in because I couldn't find Moscow on the map of Europe," replied Johnny. "And no wonder you couldn't find Moscow. It was burned down in 1812. It's an outrage to treat a child that way."

Because a 17-year-old girl at Trivoli-Italy, went to the movies to see the tango after her mother—consequent upon Papal edict—had forbidden her to go, the mother beat her so severely that she died.

Joseph Hagan, one of the staff of the Parkhill Gazette, had his right hand severely burned Wednesday. In drawing a can of gasoline from a steel barrel, a quantity of the gasoline saturated his clothes on his right side. While in the kitchen of N. E. McKinnon's restaurant, in sport, one of his chums lighted a match, the fumes of gasoline caught on fire in a flash and he was in flames. The flames mounted two or three feet in the air. Ready hands grabbed him and forced him out of doors where they rolled him in the snow and swept snow over him, which quenched the flames. The palm and back of his right hand was badly burned. His face fortunately escaped injury. He will likely be laid up several weeks.

Millers Worm Powders are par excellence the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonic in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

FINE FURNITURE FUNERAL DIRECTORS

It was at the dinner table, and the hostess addressed her husband's brother: "Do have another piece of pie, William." "Why, really, I've already had two; but it's so good, I believe I will have another." "Ha, ha! Mother's a winner," said little Frank, excitedly. She said she'd bet you'd make a pig of yourself."

On a bright spring morning Adam and Eve were taking a stroll through the shady bowers of the Garden of Eden. "My dear," said Adam, continuing the discussion of the fashions likely to be in vogue for the following fall season, "what system of dressmaking do you favor?" "Well," replied Eve, thoughtfully, "they all have their merits, but the latest system is good enough for me."—Proof.

This note was sent to a teacher by a mother to explain her son's absence from school: "Dear Mum: Please excuse Johnny today. He will not be at school. He is acting as time keeper for his father. Last night you gave him this ixmple. If a field is four miles square how long will it take a man walking three miles an hour to walk two and a half times around it? Johnny ain't no man, so we had to send his daddy. They left early this morning, and my husband said they ought to be back late to-night, 'tho it would be hard goin'." Dear Mum, please make the next problem about ladies, as my husband can't afford to lose the day's work. I don't have no time to loaf, but I can spare a day off occasionally better than my husband can.—Respy' yrs. "Mrs. Jones."

#### Scallops Are Fine Now.

Fried scallops are usually the only choice on the average bill of fare, notwithstanding the fact that there are many delightful ways of preparing these little shellfish. The following may reveal some of their possibilities to the housewife who is seeking new ways.

To one pint of scallops (washed and drained) use two tablespoonfuls of butter, two tablespoonfuls of flour, one beaten egg, one pint of hot milk, pepper and salt to taste. Melt the butter in a saucepan, take from the fire and add flour, stir until smooth and return to the stove and cook until it bubbles, then add the hot milk, salt and pepper and egg and let the mixture cook fifteen minutes. Then add the scallops and cook fifteen minutes longer. Serve on buttered toast and garnish the dish with watercress. This is an excellent way to cook scallops, as it brings out their delicate flavor.

Another appetizing way to cook scallops is as follows: Wash and drain the scallops, make a smooth, rich cream sauce flavored with pepper, salt and onion juice. Let the sauce cook for ten or fifteen minutes, otherwise it will taste pasty, then add the scallops and cook slowly for ten minutes. While this is cooking, prepare some peppers (as many as required) by washing, remove the stems, cutting a piece from the top and taking out the seeds. Stand the peppers in a baking pan and fill them with the creamed scallops, sprinkle with breadcrumbs and bake until the crumbs are brown. Serve at once.

#### Dad's Dope

If a young man marries a slender girl and she develops into a heavy-weight in after years, he can see where he got more than he bargained for.

Speaking of eugenic marriages, a union between one of the girls on the magazine covers and the athletic youth who poses for the union underwear advertisements would come pretty close to physical perfection.

The Ottawa barbers' union has passed a resolution prohibiting any member from working at his trade while under the influence of liquor. This "safety first" movement will relieve customers from resorting to saloons next.

Texas dairy farmers have constructed a short railway to convey their products to market. The road is locally known as "The Milky Way."

#### To Peel Oranges.

There is for sale a little knife that costs 13 cents. It is not really a knife, but it is a small piece of metal with a hook on one end that hooks under the orange skin and tears it open and pulls it from the orange. It is a great convenience, for it skins the orange without piercing the transparent inner skin that holds the pulp and juice in shape.
