Markets.

Toronto Markets.

"CANADA FARMER" Office, July 12th, 1867.

The weather during the past week has been cool and pleasant, with occasional showers of rain, which have been of much benefit to the growing crops.

The produce markets during the week have been unusually dull. Very little flour or wheat was offering, and there was no desire to buy. In the almost total absence of transactions, prices are, for the most part, entirely nominal.

Flour.—The market has been very quiet, and not a single sale has been reported during the week. To-day, No. 1 superfine could not be bought for less than \$7 50. In other grades there was nothing doing, and prices are entirely nominal.

Wheat.—The market during the week has been very dull, and both buyers and sellers showed very little disposition to operate. The best samples are held at from \$1 60 to \$1 65, at which prices holders are firm. In fall wheat there was very little doing. To-day a car-load sold at \$1 50, which is the only sale reported during the week. On the street market the receipts have been almost nothing. Prices are nominal.

Oats.—Have been in better demand, and are held at higher figures. The following are the sales of the week:—1 car at 45c; 1,000 bushels at 47c; 1 car at 44c, and 2 cars at 46c. Dealers are now holding at 50c.

Rye.—The market has been very quiet during the week, with a little better enquiry both yesterday and to-day. Stocks are light and very few lots are offering. Car lots could be bought at from 60c to 68c. On the street market the receipts were trifling, and prices ranged from 60c to 66c.

Barley.—Transactions during the week have been confined to the street market. Quotations for car lots entirely nominal. On the street market prices ranged from 50c to 60c, with very little coming in.

Potatoes.—Receipts considerable. Prices on the street market unchanged, viz. from 25c to 40c.

Wool.—The market during the week has remained steady at from 25c to 27c for the best samples washed, and 24c to 25c for inferior. The receipts have been light with little competition amongst dealers. To-day, 25c was paid for a few lots; but in the majority of cases the price paid was only 25c, unwashed wool will bring only one-third of the above prices.

Hay and Straw.—Have advanced; the former sold during the week at \$9 to \$14, and straw at from \$5 to \$5 50.

Provisions.—The market has shared in the general dullness of the week, only a retail trade has been done in most articles. Mess Pork is dull and unchanged; held at \$13 50. Prime Mers also very dull, held at \$15. Cut meats are very dull, with no sales of consequence. Country dried meats are in large supply and difficult to sell. Ham, smoked, are nominally 11c; canvassed 12 1/2c. Cumberland Bacon, in salt, 8c, spiced and rolled, 11c. Butter is rather better request for speculation only. Choice yellow sells at from 11c to 12 1/2c. English butter, to-day, do not warrant an advance. Bolls, on the street market, sell at from 12c to 14c.

There have been in light request, with fair enquiry for city consumption. The whole-sale price is unchanged, held at 9c; retail price, 10c to 11c. Lard.—nothing doing; held at from 9c to 10c. Cheese, unchanged, at from 11c to 15c.

Hides and Skins.—Green butchers' hides buying at 7 1/2c. Green calfskins, 12 1/2c to 15c. Wool skins, \$1 60 to \$2. Mervain hides, 5 1/2c to 6c. No. 1 inspected hides selling at 8 1/2c; No 2 inspected at from 7 1/2c to 7 1/2c.

Freights.—Unchanged. Flour to Montreal 20c, to Ogdensburg, 20c. U. S. currency; to Prescott, 15c, to Kingston, 12 1/2c. Grain to Montreal, 7c per 60 lbs.

The CATTLE MARKET.—Grass-fed cattle continue to offer freely and prices have rather a downward tendency. The following are the current quotations:—1st class, grass fed, \$7 75 to \$8, 2nd class, \$7 to \$7 50, inferior, \$6 50 to \$7. Sheep.—Prices are trending downward: 1st class, \$4 60 to \$5 each, 2nd class, \$3 60 to \$4 each, 3rd class, \$3 each. Calves.—Only a few offerings. There being no demand for Veal, Calves are neglected; 1st class, \$6 to \$7, 2nd class, \$4 to \$5; 3rd class, \$3 to \$3 50.

London Markets.—Fall wheat per bushel, \$1 to \$1 20 for inferior; \$1 40 to \$1 55 for extra. Spring wheat, \$1 to \$1 60. Barley, 40c. Potatoes, 45c to 50c.
