

PLUMBING GOODS

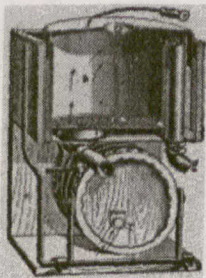

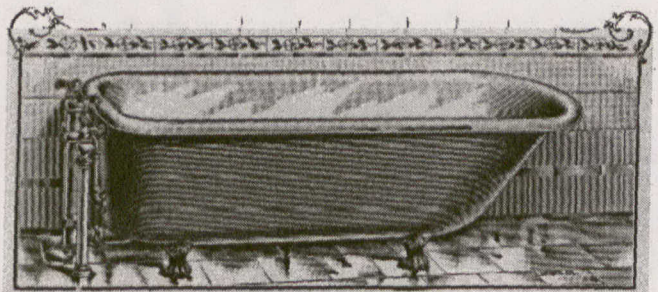

Quality is the basis we work upon. Our goods are made to last. We make them with this end always in view, not stinting their weight, nor degrading the quality or workmanship to meet competition of inferior goods.

Our J.M.T. series of Compression Faucets, with patent cushion valve, meets the requirements for a good article at moderate cost.

For Lavatory, Kitchen and Laundry use.

No hammering—unique design. With porcelain mountings marked "Hot and Cold" when desired.

Interesting to Architects, Sanitarians and Plumbers

It is well that you should know. Write us for descriptive booklet, mailed on receipt of request.
