For Hospital and Invalid Furniture.

The Weldon "Auto-Motive" Crutch.

(Pat. 105,185—1916)

FOR LOCOMOTION WITHOUT EXERTION.

Owing to the unique construction of the base, the user is propelled by gravitation without any exertion beyond resting the weight of the body on the handles.

In proceeding down hill it is only necessary to reverse the crutches, which then act as a natural brake.

But the feature of the "Weldon Auto-motive" is the anatomically correct position of the head, which conforms to the oblique direction of the axilla.

At the same time the segmental bases are parallel to each other and to the line of progression. Thus all risk of "crutch paralysis" is entirely eliminated, there being no irritation of the brachial plexus, as is common to all crutches with parallel heads.

27/6 per pair. With Seat, 29/6.
Carriage and Packing Extra.

A most Instructive Booklet issued post free on request.

A Speedy and Reliable Sterilising Agent.

A very convenient means of sterilising the site of an operation or hypodermic injection, also the surgeon's hands and instruments, with economy in time and labour, is provided in

GERMICIDAL SOAP (P., D. & Co.)

This soap contains mercuric iodide, which, unlike the bichloride, does not attack steel or nickel-plated instruments. The saponaceous base deprives disease germs of all protection and exposes them to the direct action of the germicide.

For cleansing wounds, ulcers, etc., GERMICIDAL SOAP is simple in use and very effective; it prevents suppuration. It counteracts the odour of excessive perspiration.

GERMICIDAL SOAP is excellent for destroying infecting organisms in skin diseases, e.g., ringworm, acne, scabies, and for allaying pruritus.

GERMICIDAL SOAP (P., D. & Co.) is supplied in tablets containing either 1% or 2% of mercuric iodide.
GERMICIDAL SOAP, SOFT (P., D. & Co.), containing 1% of mercuric iodide, is supplied in collapsible tubes.
