Madam,

Pursuant to discussions that have taken place between the representatives of our two countries, I have the honour, on instructions of my Government, to propose that the members of the family forming part of the household of officers of each State who are nationals of that State and who are assigned by their Government to an official mission in the other State, without having permanent residence in the latter, be authorized to obtain gainful employment in that State, provided they fulfill the legislative and regulatory conditions required for the exercise of any profession and except for cases where reasons concerning public order and national security would prevent the employment. This authorization shall terminate with the end of the officer's assignment or, if such is the case, if the beneficiary should cease to fulfill the conditions required to be considered a part of the household.

For purposes of this agreement :

- "official mission" means the diplomatic missions, consular posts or the permanent missions of each State to international organizations that have signed a headquarters agreement with the other State ;
- "officer" means diplomatic and consular personnel and administrative, technical and service personnel".
