Elemental analyser • Mass spectrometer

Current Export Markets

U.S.A., Europe

Company Summary

Established in 1974, SCIEX is a leader in the design, development, manufacture and marketing of mass spectrometer-based products for trace organic and inorganic analyses. In 1981, SCIEX was acquired by MDS Health Group Limited, a Canadian public company with diverse health-related operations in Canada and the United States. SCIEX's product line includes three types of systems which can detect, with high speed and accuracy, minute amounts of drugs, explosives, pollutants, toxic chemicals and basic elements like lead, mercury and arsenic.

High-speed sterilizer for small instruments

Company Summary

Sci-Can, a division of Lux & Zwingenberger, was formed in 1957 to distribute medical, dental and orthopedic equipment and supplies. The company provides strong technical and installation support, product training and servicing of its sterilizers. During the past two years, Sci-Can's engineering department has developed new products which has changed the focus of the company to an integrated health care company.
