

### Preamble

The National Aeronautics and Space Administration (NASA) and the Canadian Space Agency (CSA), hereinafter "the Parties",

*Recalling the NASA Associate Administrator for Space Flight's letter of September 5, 1990, extending an offer to CSA to provide Mission Specialist training for two CSA astronaut-candidates as part of NASA's 1992 group of astronaut-candidates, and the CSA Vice President of Operations' letter of acceptance of this offer of December 5, 1990; and*

*Recalling the Steering Group on U.S.-Canadian Space Cooperation's agreement in principle on Arrangements for Enhanced Cooperation in Space Between NASA and CSA, dated May 18, 1994; and*

*Recalling the NASA Administrator's letter of December 16, 1994, extending an offer to CSA for a third Canadian astronaut to participate in NASA's 1995 group of astronaut-candidates; and*

*Recognizing the need to prepare for Space Station operations and in particular for the Parties to gain experience working together on astronaut selection, crew training, and preflight preparation,*

Hereby agree to the terms and conditions as set forth in this Amendment-2 of the Mission Specialist Training Agreement..

#### 1.0 GENERAL

NASA will provide to CSA Mission Specialist Training, hereinafter referred to as "Training," for three CSA astronaut-candidates, two to be included in NASA's 1992 group of astronaut-candidates and one to be included in NASA's 1995 group of astronaut-candidates, and CSA hereby accepts such Training, under the terms and conditions set forth in this Agreement.

Training is defined to be all activities assigned to the CSA Mission Specialists/astronaut-candidates by NASA's Astronaut Office at the Johnson Space Center (JSC), including, but not limited to: official travel, collateral duties, proficiency and refresher training, medical examinations, and, in the event of a Shuttle mission flight assignment, flight specific training, mission flight, and post-mission activities.
