

CAMP COMMANDANT SEVERELY INJURED

Col. Logie Pinned Under Auto
When it Turned
Turtle

BATTALION RETURNS

Twentieth Back From Long
Branch, and Others
Go Out

Colonel W. A. Logie, commanding officer at Exhibition park camp, sustained injuries to his shoulder in a motor car accident yesterday afternoon. He was riding with his chauffeur on the track at the grounds when the accident occurred. A horse ran in front of the motor. When the car was swerved out of the way, one of the wheels collapsed and the car turned turtle and threw Colonel Logie and the chauffeur out. The commandant was first attended to by two of the contingent doctors, Lieut. Park and Lieut. Pearson. He was taken to the administration building and from there was taken to the Toronto General Hospital by Lieut.-Col. Marlow, A.D.C., of the camp.

The 20th Battalion, 2nd contingent, returned to Exhibition park yesterday afternoon at 5 o'clock from Long Branch, where they have been camping out for the past two days. The 19th Battalion left the park at two in the afternoon for Long Branch for two days of training similar to that just gone thru by the 20th. It will be away for two days and two nights. The men took all their equipment with them including their cooking utensils. On reaching Long Branch they established camp at a different locality from where the 20th had been, erecting the tents which the other battalion purposely taken down on striking camp.

Motorists and Troops.
The letter sent by the Ontario Motor League to Col. Logie telling of the association's desire to prevent interference by motorists with troops marching in the city streets, has been replied to by Col. Logie. He says the cases of motorists obstructing parades and endangering the lives of the soldiers have been reported to the police. Such conduct is punishable under the Militia Act. I shall be glad to co-operate with the league in bringing such reckless drivers to justice.

An inspection of the Cadet Corps of the University School was held yesterday afternoon at the university stadium by Major R. K. Barker. About 100 are in the corps.

Mother Hears from Son.
Mrs. Isabella Barfield, 129 Argyle street, who has just received official word that her son, Pte. Arthur Barfield, has been wounded, says: "I know I'll see him again, but hope he's not badly wounded." She is proud of his "such conduct" and "not a bit downhearted."

Capt. Edwin F. Carson, cousin of Sir Edward Carson, has arrived in Toronto for the purpose of enlisting in the second contingent. He says his chances of going as an officer are slender, as the contingent is already overfilled, but he is willing to go as a non-commissioned officer. Carson fought in the Boer war and there, he expects the present war to be a long one.

Near Centre of Battle.
Dr. S. Linnell, at the front with the Royal Army Medical Corps, has written to his friend, Dr. F. C. Harrison, Toronto, telling of his experiences at Neuve Chapelle. His dressing station, he says, was only a short half-mile from the centre of the battle.

POSTAL NOTES ARE UNDER RESTRICTIONS

Measure Necessary Because of the High Rate of New York Exchange
By a Staff Reporter.
OTTAWA, April 29.—The postmaster-general announces that, owing to the high rates of exchange on New York, it has been found necessary to restrict to \$5 the total value of postal notes which may be sold to one person on the same day for remittance to the United States.

It is also announced that until further notice money orders only must be used in remitting to that country in excess of \$5.

PATRIOTIC DINNER ARRANGED.

Under the auspices of the Sir William Ooster Chapter, I.O.O.F., a luncheon and dinner will be served at 81 Lawrence Market in aid of the University Base Hospital.

Contributions of provisions and money will be thankfully received by Dr. Caroline Brown, regent, 223 Ossington avenue, or Miss Bradley, 21 Naim avenue, Earlscourt.

SANITARY CONDITIONS VERY BAD IN SCHOOLS

Opinion of Trustee Dr. Hunter at Management Committee Meeting

CLOSE ON JUNE 25

Date Set When Holidays Commence and Forest School Opens

It is the opinion of Trustee Dr. Hunter that the sanitary conditions in some of the Toronto Public Schools are abominable. He declared at the management committee meeting yesterday that in case the medical inspectors cared to dispute his statement, he was ready to face them before a gathering of the Ontario Medical Association and substantiate his charges.

The matter arose over a motion of Trustee Dr. Noble that the sanitary conditions in the Toronto Public Schools be reported directly to the school committee, and it was decided that this must be done.

Dr. Noble expressed the opinion that unfavorable reports on sanitary conditions in schools were choked before the trustees heard anything of them.

A suggestion from the chief inspector's department that additional accommodation be made at St. Clair Avenue School was turned down. It was pointed out that the close proximity of the present school building to the stock yards was not healthy for the pupils and encouragement is to be given to have children attend neighboring schools.

Close June 25.
The public schools will close for the summer holidays this year on Friday, June 25, and the high schools on Friday, June 11. The forest schools in Victoria Park and High Park are to open on May 19.

Inspection of the high school cadets will be held on June 3, the King's birthday.

Miss Grace Gray, Miss M. F. Galbraith and Miss J. F. Glass were granted leave of absence to join the Canadian overseas force as nurses. Teacher Archibald Duffern, Street School, was granted leave of absence to go with the Machine Gun Battery of the contingent.

The following teachers were appointed to the temporary staff of teachers: Misses M. Meldrum, Mamie Robertson, Christina Knott, P. Somerville, R. A. MacDonald, F. C. McDonald, A. M. Johnston and Mrs. Alice Outram.

Appointed to Staff.
Twenty-five school teachers and 14 kindergarten teachers who had satisfactorily served the term of probation were appointed to the regular staff.

A deputation of parents from the Palmerston Avenue School district appeared before the committee to urge that a domestic science room and a manual training room be included in the new building being erected for that school. The matter was referred to the property committee.

Dr. J. T. Hughes appeared before the committee to request the permission to address the scholars at the various public schools on the matter. The request was granted.

START TRAINING AVIATORS TODAY

Pupils Will Enlist in Royal Flying Corps or Naval Wing

FRENCH PILOT COMING

Viscount George de Maudslayi de Kerver, Who Was Injured, May Help

The first people in the aviation field in Toronto, the Canadian Aviation Co., and on Monday the first flight will be made. The pupils who will be taught are required to enlist in the Royal Flying Corps of England or the naval wing, and as enlisted men any flights that may be made during the instruction will not be prevented by the military authorities. At least this is the newest way suggested for avoiding the order in council against flying over Toronto and vicinity.

Enlistment forms are being signed by the prospective pupils, to whom about a dozen will constitute the class that will get into swing during the next few weeks. W. A. Dean, the president of the company, believes he can pick out about 40 or 50 men who have the requisite qualities and fitness, and train them for service in the flying work of the army and navy.

Mr. Dean has a well equipped plant flying boat for water work, and while building an aeroplane for flying over land, will have the use of Capt. Janney's aeroplane.

Mr. Dean's aeroplane is to be ready June 1. He is now negotiating with Viscount George de Maudslayi de Kerver, a French pilot, who was brought down and injured at Lille, after six months' straight war service, to bring to Toronto a speedy monoplane which the viscount is now having built in New York.

It is almost certain that arrangements will be made that will attach the viscount to the Dean school.

Frank Burnside, who was instructor at the famous Thomas school in New York, joins the Dean force early next week. The school has its hangars on the east end of the R. C. Y. C. Arrangements have been made with the parks commissioner so that pupils who care to camp right on the job may put up tents nearby. Mr. Dean's 35-foot power boat, which made such a stir on the bay when introduced last year, will take the men back and forth from the city.

JAS. DEWAR REPORTED KILLED.

James Dewar, a hydro-electric line-man, who resided at 76 McGill street, is unofficially reported killed in the recent action. Dewar came from Belfast, Ireland.

MONEY SHOULD GO WHERE REQUIRED

Question of Paying Insurance to Well-to-Do Families is Up

WHO WILL BE CHOSEN?

Some Want Firefighter for Chief; Others Say Commissioner

Some of the soldiers who have been insured by the city have no dependents and their relatives are well-to-do, and Controller O'Neill believes that the money in such cases should go to relieving distress where it is necessary. This applies in the case of John Beakley, one of the members of the first contingent, killed in action, who leaves no dependents.

In order to settle the matter, as there will doubtless be many cases of the same kind, the city solicitor will be asked to report as to whether the city is bound to pay the money to a man's relatives when they are in good circumstances.

Talking Fire Chief.

Indications are that Col. Langton will not become head of the fire department as a majority of the aldermen have expressed themselves as being against the appointment. There are those who want a fire-fighter and not a commissioner, and some of those who want a commissioner are not in favor of Langton.

As fire-fighters the names of William Smith and Alexander Gunn are proposed, and the names of W. J. Evans and A. E. Burgess are suggested as commissioner. There is a feeling, however, that before anything is done Judge Denton's report on the investigation should be in, and it is quite possible that the whole matter may be laid over until another council meeting, so that the members may have an opportunity to discuss the report.

Regulate Concerts.
If the city can find any way to do it, means will be adopted for the regulation of so-called patriotic concerts. The Women's Patriotic League appeared before the controllers yesterday and asked that something be done along these lines and as a result the board will ask for a report from the city solicitor.

A permit has been taken out by the Bell Telephone Co. for a new exchange in North Toronto, to cost \$2,000. Permits for dwelling houses totaling \$7400 were also taken out yesterday.

The Civic Labor Bureau will be moved from West Adelaide street to 120 West Richmond street today. The saving in rent is \$60 a month.

The contract for the island incinerator has been awarded to the Toms Contracting Co., Limited, of Toronto. It will be located at the new filtration plant and work will be commenced immediately.

Will Go to War.
The board of control yesterday gave four civic employees permission to go to the front. They are H. Borchardt, T. V. McCarthy, W. F. Cates and A. F. Margerison, all of the works department. They will receive the difference between their present wages and what they are paid by the government as soldiers.

The activity in the building trades throughout Toronto is shown by the rush in the city architect's department. Plans for new buildings are coming so fast that the plan examining staff is unable to cope with the business, and two temporary examiners have been added.

BRITAIN TO RAISE DUTIES ON LIQUORS

Doubled Impost on Spirits and Quadrupled One on Wines

NATIONALISTS OBJECT

Lloyd George May Alter Proposals Because of Strong Opposition

should parliament refuse to sanction the taxes, they are refunded to those who may have paid.

The Laborites promised to reply to the chancellor's charges that a minority of the workmen, lured away by drink, were not putting their best efforts into the work of producing material, which is so badly needed by the soldiers at the front.

Included in Budget.
The extra taxes will be included in the budget which Chancellor Lloyd George will introduce in the house of commons on Tuesday next, and the bill, which is an amendment of the Defence of the Realm Act, will be proposed for the second reading at a later day, when the debate on it will take place.

Before that time the chancellor has promised to place in the hands of the members a series of reports of independent investigators, on whose findings the government decided to take the action it has.

Besides the Irish opposition to the spirit duties, many members opposed the new wine taxes on the ground that they strike at France, Australia and South Africa. The proposed appointment of a board of control, and the proposal to take over for canteen purposes the saloons in the munitions and war areas and to compensate all interests are generally approved by the members.

Regarding beer up to 48 specific

gravity, there is to be no change. Above that there will be a graduated surtax to discourage heavy brews, rising to 38 shillings (\$9) per barrel.

The duties on wine are to be quadrupled. Sparkling wines will pay 14 shillings (\$3.75) a gallon.

Slow to Ireland.
Andrew Bonar Law, leader of the opposition, reserved until later his criticisms of Mr. Lloyd George's plan. John Redmond, leader of the Irish Nationalists, and William O'Brien, leader of the Independent Nationalists, condemned the chancellor's proposals as prejudicial to the trade of Ireland.

Mr. O'Brien declared that the chancellor was killing the trade of Ireland by inches. If he succeeded in his new taxed the results would be as horrible for Cork as if that city were bombarded and sacked by the Germans. The only just and logical course was to exclude Ireland altogether from the operation of the plan.

Lloyd George said that in areas producing materials of war or in which transport work is performed, and in some camp areas, the government is

CANNOT LURE RILEY BACK TO KINGSTON

SPRINGFIELD, Mo., April 29.—Gen. Von Kluck, of the German command, who was wounded last month, is now on the road to recovery, according to The Hamburg Nachrichten. This newspaper adds that the general is now able to appear in the garden of his villa, which has been converted into a hospital.

Will Hasten Triumph.
"These are necessary," he declared, "to insure victory; not ultimate victory, but victory soon with unnecessary loss of life."

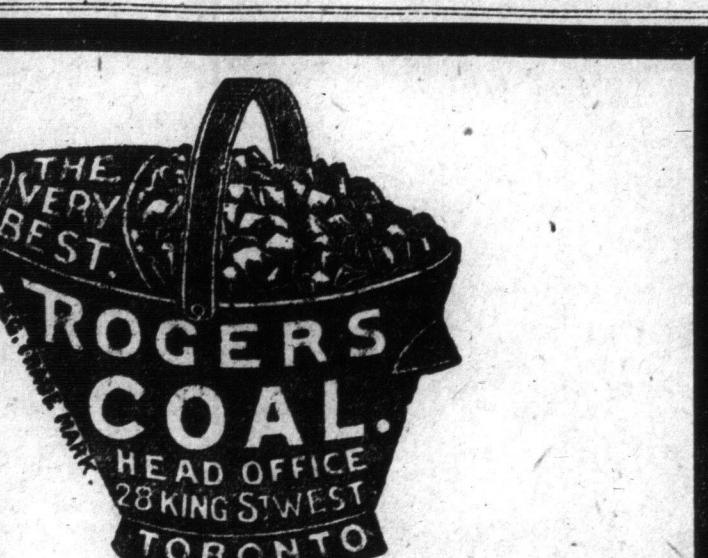

Among some workmen, the chancellor of the exchequer remarked: "Everybody agreed on the existence of this evil until the remedies were foreshadowed. The facts show that the evil is so serious that nothing but strong action will enable the country to cope with it."

Mr. Lloyd George deals at length with the loss of time due to drink, showing that in some cases men were doing fewer hours than in ordinary peace times. He attributed this to the fact that the men were "earning more money than they knew what to do with."

In introducing the present bill to amend the Defence of the Realm Act, the chancellor said he was not proposing a solution of the temperance question, but only an act or discipline during the war.

Prohibition Later?
Continuing, Mr. Lloyd George said the government had concluded it was not justified in instituting prohibition until it had tried everything else. It would be too serious an interference with the habits of the people. The government, therefore, had adopted the plan of restricting as much as possible the sale of spirits and most alcoholic liquors.

The time lost by drinking, the chancellor said, was equivalent to the services of 150,000 men, and the whole community was being asked to make sacrifices because of the weakness of a section of the workers.
