THE BOUNDARY GREEK MINING DISTRICT.

* * *

GENERAL DESCRIPTION.

T THE point where the Kettle river makes its third crossing of the international boundary, it is joined by a creek of consider-

able size, which on account of the above coincidence has been named Boundary Creek. It is along this creek and its tributaries that the Boundary Creek Mining District is situated. It lies about 35 miles west of Trail Creek. A rough boundary of this district would be the North Fork of Kettle river on the east; Rock creek on the west; and the international boundary line on the south. The northern limits may be placed at from 12 to 15 miles north from the boundary line.

The included area is from 400 to 500 square miles. The surface of the country is in general rough and mountain ous, but none of the mountains are so rugged but that they
