

# YOU CANNOT SPEND YOUR HOLIDAY IN A BETTER WAY THAN IN VISITING Kingsmount and Glenmount Park

Right-on-the-Gerrard-Street-  
Civic-Car-Line, on which cars  
will be running this Summer.

This is the greatest real estate offering of the year. These parks are inside the City Limits, 22 minutes from King and Yonge. Prices are away lower than any other properties in Toronto. And these prices will jump \$10 a foot just as soon as the cars are running. The steel is down now---the Street Railway Company will interchange traffic. Pause for a second and think what this means.

These properties are closer than Parkdale and far more attractive. Beautifully wooded, with high elevation—a magnificent place for your new home. Buy a lot to-day. You will reap a rich profit.

We'll take you down. We won't have to expound the advantages of Glenmount Park and Kingsmount Park. You'll see them for yourself at once.

## NOTE THE LOCATION

Well within the city limits, and in the best part of the new east end. High-class restrictions—solid brick on every lot. Surrounding property is restricted too.

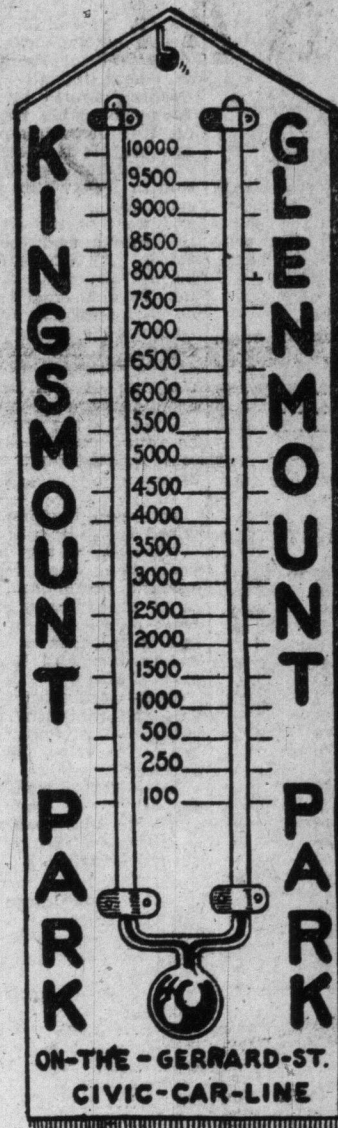

Our parks are a hundred acres of forest untouched except by the grading of sweeping crescents, and stately boulevards and roads.
