"That the disease now prevailing extensively in the United States, and called in some instances 'pseudo smallpox,' is genumented and successful in the United States, and called in sandpox, and should be so treated with vaccination and quarantine by all health authorities."

The same difference of opinion seems to prevail in the diagnosing of smallpox among the medical men in the United States as in Canada. The consensus of opinion there is that chicken-pox in adults is so exceedingly rare that the patient should be immediately isolated, rather than run any chances of having smallpox develop later on.

Dr. Hodgetts, who has done considerable work for the Ontario government during the outbreak of smallpox in the Sudbury district, and other places, also holds that no chances whatever should be run with suspects. He heartily agrees with the above resolutions.

This Shooting Was Fatal.

The attempt made by Alfred Parsons of 74 Blair-avenue to end his life early yesterday morning proved successful. Death ensured at the General Hospital last night at 10.45 o'clock.

Parsons returned to his home about 1 o'clock yesterday morning and was then intoxicated. He went to his room and a few minutes later his wife heard a pistol shot. She hurried to his room and found him dying on the floor. Neighbors who were also awakened by the report of the pistol sent for Sergt. McFarlane at the Wilton-avenue station. He, accompanied by P. C.Greaves, went to the house and in the meantime Dr. Hargraves had arrived on the scene.

The sequel to the story is now to hand. A rew only ago Park was sent to the workhouse in New York for six months for deserting his wife and child to buy wine suppers for a chorus girl in "The Runaway Girl."

On the scene.

After the wound had been temporarily bandaged, Parsons was taken to the hospital. There it was found that the bullet had entered about an inch below the heart and it was removed from beneath the skin at the back. In the afternoon Parsons or regained consciousness, but towards evening he lapsed into unconsciousness again. Deceased was about 50 years of age and widow he leaves one son, who left for the Canadian Northwest on Tuesday. Coroner Alkins was notified, but it is thought that no inquest will be held.

Girls Prefer Factories.

Girls Prefer Factories.

Girls seem to prefer life in a factory or in a store, because they can have their evenings to themselves. They look upon the maid's cap as a badge of servitude, and the prospect of a comfortable home with good wages is not nearly as much desired as a position as clerk in a large store or factory.

Physicians particularly are the greatest sufferers from the lack of domestic help. The frequent ringing of the telephone and door belis seems to be highly objectionable to the girl, thus the difficulty in securing their services.

A large down town hotel some time ago commenced the experiment of employing Chinese help in the laundry. It worked very successfully and now the housework has been intrusted to them and the experiment has fulfilled all expectations. The Chinaman was found to be neat, quick and willing to work and in every way the equal of females. He is trustworthy, too, and is said to be able to perform a greater amount of work.

Does His Work Well.

This same experience applies in the case of more than one house in the city. At first John seemed very strange to the mistress, but in a few days she got used to him, and his aptitude for the work and the thoro way in which he does it made up for the other little drawbacks.

The inovation at present is apparently not popular and girls would be preferable, but as long as there are not enough of them to supply the demand there is nothing left to do but employ Chinamen.

Many Chinamen in Town.

The introduction of Chinese help into Toronto households will explain the presence of so many more Chinamen on the streets than were seen formerly. The great majority of them have now discarded their national attree for that of their adopted country.

Residents of Galt, Ont., are said to have found a fairly satisfactory solution of the servant girl problem by having the girls work out a fixed number of hours a day and sleep at home.
