shadow a long cruise. A suggestion made is that the Spanish fleet may make directly for the Philippines by way of the Cape of Good Hope, to attack Commodore Dewey's Asiatic squadron, which it would far exceed in strength.

St. Johns, Nfld., April 27.-It was reported here last night, though the rumor lacks confirmation, that a Spanish warship had been sighted off Bay Bulls, twenty miles south of St. Johns. She is believed to be after American fishing vessels on the Grand Banks. Portland, Maine, April 27.—An Eastport dispatch says that the Canadian fishing smack Curlew reports having sighted a Spanish war vessel a few miles out to sea. Kingston, Jamaica, April 27.-A bat-

London, April 27 .- It is believed here that the United States will gain little by operations at the Philippines. Even if the fleet secured Manila, the effect would only be to lock up the squadron, which could be more usefully employed

New York, April 27 .- A Journal extra says the United States fleet are re-100 miles of the Philippine Islands, in line of battle. An engagement with the Spanish fleet is hourly expected. This seems highly improbable, in view of the distance from Hong Kong to Manila. According to a special dispatch from

Pekin, it is pointed out there that Spain cannot send warships to Manila by way of the Suez Canal, because the coaling stations at Aden, Colombo and Singapore are in British hands. If her ships coal at Aden, then both Colombo and Singapore will be closed to them.

MESSAGE FROM BLANCO. Madrid, April 27.-Gen. Blanco cables that the situation is unchanged. His dispatch says: "This (Tuesday) evening a division of five American vessels approached Marianao. The Spanish gunboat Nigers repulsed three destroyers, which tried to enter the port infantry, and his orderly, who were of Cardenas, and compelled them to retreat. I believe the Americans will not dare to disembark in Cuba,"

MANILIANS EXCITED. New York, April 27 .- A dispatch to the Herald from Hong Kong says: O. F. Williams, the American consul at Manila, who arrived here on the steamer Esmeralda, says that he was denmediately joined Commodore De He says the people of Manila are wildly excited, fearing that they will be between two fires, the American squadron and the insurgents. About 25,000 native insurgents are encamped outside Manila, ready to rush upon the Spaniards as soon as the American fleet appears. PRESS AND PUBLIC BECOME IM-PATIENT. The Spanish generals say they have not much fear of the Americans landing in Cuba at the opening of the yellow fever season, if their ets only manage to kep some part of the coast clear for the arrival of supplies and ammunition. They also argue, from all past experience in naval wars, that it is possible to run the blockade with fast merchant steamers if the enterprise is properly rewarded. They trust also much to the spirit of their troops and volun-teers in Cuba, which Marshal Blanco clared that he had not read any of to the point of resisting a foreign in-

Havana, April 26—5 p.m.—via Key West, April 26, 1:15 a.m.—Since noon no strange sails have been sighted, and the afternoon has been without incident. Lieut. Dephino, of the Spanish captured by the gunboat Wilmington on board a small schooner bound for Matanzas, were put ashore at Santa Cruz, 24 miles from Havana, by the United States scout boat Algonquin. The lieutenant was on furlough, and was going to see his wife and infant child. The latter was born last Friday, and the father had not seen his child. Under the circumstances Rear Admiral Sampson decided to let the Spanish officer and his orderly go under parole. The Algonquin, commanded by Ensign Crosly, flying a flag of truce, steamed into the Santa Cruz inlet. The small craft was closely watched through many glasses on board the flagship New York, which was lying only a few miles off. A few persons were seen to gather near the small fortifications of Santa Cruz as the Algonquin approached. The latter performed her mission safely, and ap-

She is the first boat known to have left Havana since last Friday, when the blockade was commenced. She was coming out from Elmoreo about 5 p.m., and was about six miles from land before the New

York started on her trail. Capt. Tucker gave satisfactory proofs of the Luciline's identity. He said that the people in Havana did not know that war was in progress. The English consul, Mr. Colin, has said nothing to him, so Capt. Tucker alleges, about the blockade or the war. When asked what explanation was given in Havana of the appearance of Ameri-Tucker said he had not bothered his head about it, and had not heard anyone talking on the subject. "The result of defeat," Senor Silvita says," will only mean a oss of what has already gone, since Europe would not allow an army of occupation in Spain pending the payment of war indemnity." The Con-servative leader says: "It daily becomes clearer that America has blundered into a war that will be disastrously expensive to her, whatever the outcome. The fault lies with the jingo papers in urging American tery, London township. The cortege statesmen beyond the bounds of reasonable demands of good government for Cuba. America is justified on that point, but not beyond it." The general opinion among Spaniards is that America has coveted Cuba from the first. A better balanced opinion, held by a few is that she wished to secure a piece of the prosperous Cuba, owing to mutual commercial interests, but that, this obtained, the American Government could not withstand the "jingo wave." It is argued that the war must be disastrous to the true interests of the United

States. Spain intends to prolong it until European interests are involved, and the powers are compelled to intervene in self-defense, or until the expected general conflagration of Europe against Anglo-Saxon domination is brought about. Spain's determination to set the world ablaze, rather than to withdraw from the conflict is very marked. A RUSSIAN VIEW.

Odessa, April 27.—The Russian press thinks that if the United States fails to gain a naval victory soon Spain's honor will be saved, and Europe will insist upon the latter's capitulation, in order to prevent loss of commerce. Enormous quantities of grain have been sold to Spain.
