#### The Toronto World Horning Newspaper Published Every Day in the Year.

BRITAIN AND CANADIAN INVEST-

The oft repeated assertion made by corporation organs in Canada and by lic utility propositions, that the Whitney policy of government ownership is right to eat it in their restaurants as undermining the confidence of British investors was clearly disproved during to a very small circle in the great policy. Few investment brokers in this as being made in Ontario in connection with this movement.

Both in London and in the provincial cities, which form centres for funds for colonial investing, as well as for investment elsewhere, the highest opinion prevails as to Canadian securadian promoters, who have a little syndicate of their own in London, is evi-dently confined to this coterie, and is sues or in other good Canadian industrial securities or municipal bonds and

#### debentures are concerned. DIRECTORS WHO DO NOT DIRECT.

U.S. currency to his official letters of surf-bathing. Both were unnecessary enquiry addressed to the directorates Had there been proper protection the of national banks asking whether they had any actual knowledge of the con-dition of the banks whose affairs they by a bather if he is swept off his feet. had any actual knowledge of the conwere supposed to control. Only a quarter of the total number of directors professed knowledge and only 31 per from the bank funds, in all other cases loans were left entirely to the It would doubtless prove a boon to discretion of the responsible officers lovers of surf-bathing, lessening the There is of course nothing unusual in this attitude, nor is it confined to the United States. Similar conditions no doubt exist-all over the civilized world, wherever there are joint stock companies. Nor are they peculiar to The World of this morning, under the heading "Needless to Comment," rebanks. Few directors in any company strict themselves to one concern. As me say, "The selling of ice cream as a for the pluralists who distribute their assistance over many companies, their

pretend to be greatly distressed over required to work on Sundays." the prospect of city and town councils undertaking the charge of business What, they ask, does the ordinary alderman know about the prominent a place in your paper as the running of a street railway, or a gas work for an electric light and power work or an electric light and power the inference from your incorrect services. It is quite safe to say he will statement of my address. know quite as much or as little as an ordinary director. Responsibility for actual operation in all cases rests with the proper officers, and a city council columns.-Ed. just the same position as a body of directors. Public undertakings, from a business point of view, can be managed quite as efficiently under an elected city council as under an elected board. More efficiently indeed for the public, since the disturbing element of
