# One Special "Coat Suit"

We have included in our already large business a new department for high-class Coat Suits and Skirts for women. It has been our aim to make this department decidedly exclusive in the quality and model of the costumes we sell. We believe we have succeeded.

Every Suit shown was made specially for us from advance Parisian designs and the fact that the department was only opened this week should carry with it the suggestion that everything is positively new.

While these costume are very modern in design and the best of natty workmanship, they are not high priced, but come within the catalogue of the most moderately priced.

We extend to the ladies of Toronto a very cordial invitation to call at their earliest convenience and view the goods we have secured for this opening.

### POWER AND PHONE WIRES HIT BY ELECTRIC STORM

Hamilton Was Victim of Bad Weather-May Get Smoke Consumer Plant.

HAMILTON, Aug. 25.-(Special.)-A severe wind and electric storm visited this neighborhood this evening and did great damage. The Cataract Power Company and the Bell Telephone Com-pany seem to have been the worst sufferers. The former had several transformers blown out, thes were stopped and the lights out for a short time, while the Telephone Company had a number of its wires crossed. One of the police boxes and a circuit of the fire department systems were put out of business by the storm.

A representative of the Eureka Smoke Consumer Co. of Rochester, N.Y., waited on the property committee this evening. He asked it to install two or the company's appliances on the city hall. where they are badly needed. The committee could not see their way to complying with the request, but Ald promised to place one on one of his chimneys. The representative of the company intimated that his con-

Fine Social Gathering at the Scarbro "Bluffs:"

ELLESMERE, Aug. 25.—(Special)—Mr. and Mrs. "Archie" Paterson wore the host and hostess at a most delightful luncheon, given at the Scarboro Bluffs, on the lake shore, on the beautiful farm of Jonathan Ashbridge, this

atternoon.

Between 35 and 40 were in attendance, and among the invited guests were Mr. and Mrs. Thomas Weir, Mr. and Mrs. George Scott, Mrs. William Patton, Mrs. David Marshall, Mrs. W. J. Carnahan. Mrs. Alex. Baird, Dr. Coutts, Miss Margaret. Hirton, Mrs. Robert McCowan. Miss Ruth McCowan, Mrs. A. D. Thomson, Mrs. George Chester, Miss Annie Third, Mrs. William Young, all of Scarboro: R. H. Paterson, Mr. and Mrs. W. M. Smith, Mr. and Mrs. George Stevenson, Miss E. F. Stevenson of Toronte, Mr. and Mrs. C. Moses of Cobalt.

The affernoon was spint in social games and a visit to many of the points of interest in and around the unrivaled scenery which here, as in no place in the vicinity obtains. Many of the ladies even braved the dangers of the descent to the shore line and were amply rewarded for their temerity in the views obtained.

The ladies had provided an abundant

repast, as only country people can, and some idea may be gathered of the senerous provision made from the fact that even after "Geordie" Scott, Dr. Coutts, Tom Weir and others had dined, an abundance remained.

# Ald. Graham:

## Please Take Back What You Said About Me.

After fighting the bakers' combine for years, and beating them, and after spending thousands of dollars in advertising that I am NOT in any combine, and giving the details of the weight and price of my bread, I am amazed at Alderman R. H. Graham's statement, reported in one of the morning papers, that

"The bakers have a combine, and they all make the same weight of loaves and charge the same prices."

That statement MUST NOT INCLUDE ME. I am not in any "combine," or even in any association with other bakers. I am independent. My bread is ALL 24 ounces and 48 ounces; my price is not "the same" as that of other bakers; I sell a bigger loaf, a finer quality, at a lower price, and I want some credit for it. If Alderman Graham wants to realize that there is one baker who keeps up to legal standards with full weight, high quality, and at a cheaper price-namely, 5c a loaf-let him try

# Lawrence's Home-Made Bread

It would be wise for the whole Council, Board of Control and Board of Aldermen to try my bread, note its size and consider the low price I charge, before they talk about my being in a "combine" or charging the 'same price" as other bakers.

"same price" as other bakers.

There's not much use in "talk artists" trying to run te chnical trades like baking, by legislation. The laws that are being enacted work AGAINST the public in stead of FOR them. That has been the result of every interference of legislation with the natural course of supply and demand, and always will be. You can't legislate against the course of nature. There was no real grievance in the first place, so there never needed to be a remedy. One bad law makes two more bad laws necessary to correct its faults, and so on, legislation ad infinitum. The reason loaves were smaller before was because the price per loaf was down and the price of materials was up, and when legislation tried to force up the size of the loaf, the price went up, too. Where's the benefit to the people? There isn't any. The people always get the best and biggest at the lowest price, and, if they don't, it is because they don't care to. Every baker is giving the most he can for the money, so as to get the most trade. There is a higher law than that of the Provincial Parliament, namely, the Natural Law of Supply and Demand, and no legislation can change it.

What I want to say is, that I am not in any "combine," and that I sell my bread I cent a loaf cheaper than other bakers, and also that my bread is 24 ounces to every loaf.

# Now, Alderman Graham:

Cheer up, and change your baker. Ring up College 321, and get some good bread at 5 cents for a 24 ounce loaf.
