Public Annoved by Conditions on the Lakeshore Road Line.

What caused the interruption of the power supply on the Toronto & York Radial Railway yesterday afternoon

between 4.50 and 6.10 is a mystery. When questioned last night. F. G. Mrs. Styles, Nairn avenue, Earlscourt, has received official notification
that her son, Pte. Sydney Styles, C. E.
F., was admitted to hospital suffering of power to be had, and it was not the fault of his company if the radial

Since August 6 the commission has not received a single car of stone and after two weeks of negotiating there is still no relief in sight. Both the electrical storm over the southern part of Markham Township yesterday afterhave promised to do something in the matter, either by renting cars of using ballast cars, but with no result. Every day's delay in the construction of the highway is causing more than a little uneasiness to the Lake Shore road residents and storekeepers between Humber Bay and New Toronto, who are demanding action of some sort. They want the road to be proceeded with at once, and see no reason why, the commission should be hampered so much in their efforts to secure stone.

Last week the Highway Commission by scraping the stone yards were able to paye for a distance of 150 feet past the Lake weight the Lake with was struck by lightning. The store had a standatill and will not be resumed until stone is secured.
