

THE GREAT DURABILITY
OF THE
-Newcombe Pianos-

IS THE RESULT OF THEIR SUPERIORITY
IN MATERIAL AND WORKMANSHIP

A TEN YEARS' TEST

(copy)

Vancouver, Jan. 10th., 1892.

To Messrs. Thomson Bros.

Gentlemen,—I have much pleasure in testifying to the merits of the Newcombe Piano, of which you have the Agency for Vancouver. I have had one of these instruments in use for ten years. It has been twice moved, first from Vancouver to Calgary and later to this city. The extreme changes from the severe frosts of Ontario and the dry, clear air of the Territories to the damp atmosphere of the Pacific Coast have not had the slightest injurious effect upon it.

I consider my Newcombe Piano, after ten years' constant use and two long railway removals, to be equal to any new instrument I could procure, and would have no hesitancy in recommending a Newcombe Piano to any person wanting a first-class instrument.

I have the honor to be, Sirs,

(Sgd.) Yours, H. COLLINS,

OCTAVIUS NEWCOMBE & CO.
