In this year the admissions have been ten less than the last, shewing the continued favorable operation of the Act of Assembly imposing an entrance fee of twenty dollars, and also of the Commissioners' Order,* leaving some cases to the decision of the Medical Superintendent to admit or not at his discretion. The number at the end of this year, however, is the same as that of last year. The Institution is still too full. The only proper relief for which, is to furnish more accommodation. Last year I published the Resolutions passed by the American Association of Medical Superintendents of Institutions for the Insane, giving their expression of the evil effects of over-crowding, which I hope may not be overlooked, and that they will have their due influence in the proper quarter.

* ORDER.—“It is Ordered, in consequence of the crowded state of the Lunatic Asylum, that, until further notice, the Medical Superintendent be authorized to exercise his judgment in reference to receiving additional patients. All Magistrates and others are therefore notified that, except in the case of lunatics clearly dangerous and violent, it would be advisable before issuing Royal Gazette, 26th June, 1872.
