Cutting and Hauling Crews to Be Utilized Also For Driving

FREDERICTON, April 24.- Although the month of May is but a few days off, and stream driving in ordinary springs is getting under way at this time, logging and hauling in the lumber woods is still going on in the extreme north of the province. A. T. tention being to have these crews drive the logs as soon as conditions permit. In the old days of lumbering that system was followed generally, the woods crews also being the driving crews, and staying with one operator from late summer until the beginning of the following summer, when the logs would be driven into the booms.
