Real Fruit Desserts  
The new kind with  
Flavors in Vials.

## The New Fruit Dessert Which millions have adopted

Bottle in each package

Jiffy-Jell is the new fruit dessert which millions have adopted.

You know the old-style quick gelatin desserts. The fruit flavors came in dry form in the mixture.

Learn what this new type means, flavored with condensed fruit essence sealed in glass. It is supplanting the old style in millions of homes which have tried it.

### Fruits are crushed

Jiffy-Jell has no artificial flavors. We crush the fruit, condense the juice and seal it in a vial.

Each dessert brings you—sealed in a glass—a wealth of fruit-juice essence.

The flavor is abundant. For instance, we crush half a pineapple to make the flavor for one Jiffy-Jell dessert. This is done in Hawaii, from fruits too ripe to ship.

Thus the whole dessert, rich in fruit, costs you no more than the fruit we use would cost you separately.

### Six big servings

One package of Jiffy-Jell makes six servings in mold form, or twelve if you whip the jelly.

It supplies real-fruit dainties at a fraction of the cost of jams and marmalades.

It comes ready-sweetened, and with sugar—not with saccharine. It comes acidulated with lemon or grape acid.

You simply add boiling water, then the fruit juice essence from the vial, and let cool.

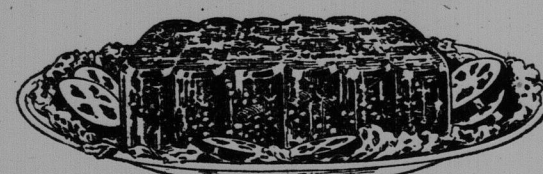

A moment's time and a trifling cost will serve your family with a fruit dessert, healthful and delightful.

### Compare with the old

Compare Jiffy-Jell with the old-style gelatin desserts. Learn how much the real-fruit flavor adds.

Fruit is essential. Everybody needs it daily, and a mere flavor does not suffice.

Now you can get it—eight kinds of fruit—in this delicious form for a little. Try it once. It will change your whole conception of these quick fruity dainties.

### Also for salads

Jiffy-Jell in lime-fruit flavor makes a tart, green salad jelly. Serve with your salads or mix the salad in before cooling. Then you have a zesty salad loaf. Or mix in meat scraps and make an appetizing meat loaf.

Jiffy-Jell in mint flavor makes a green mint jelly. Serve with your meats, hot or cold. Or serve as a side dish.

Try Loganberry or Pineapple for desserts. They are two of our finest flavors. But Jiffy-Jell in any fruit flavor tastes like a fresh-fruit dainty.
