Byphills and Mercurial Disease.

New Orleans, 25th August, 1859.

D. J. C.-Aten: Sir, I cheeffully comply with the replest of your agent, and report to you some of the effects
have resided with your Saragarilla.

I have cured with it, in any practice, most of the complaints for which it is recommended, and have found itseeffects truly wonderful in the cure of Fourest and Meryerial Disease. One of my patjeats had Syphilite ulcers
in his threat, which were consuming his paints and the
top of his mouth. Your Saragarilla, steadly taken,
cured hand in five weeks. Another was attached to be
the property of the part of the state of the content of the part of the state of the content of the part of the state of the part of the
disorder would seen reach his brain and kill him. But it
yielded to my administration of your Saragarilla; the
ulcers bealed, and he is well again, not of course without
some distinguisation to his foce. A woman who had been
treated for the same disorder by mercury was suffering
from this poison in har bouses. They had become no sensitive to the wearker that on a damp day she suffered excruciating pain in her joints and bytes. She, to, was
cured entirely by your excessorials in a few weeks. I
know from its fermina, which your agent gave me, that
the frequention of the paint of the paint of the paint of the remotily consequently, these truly markable results
