A LAZY LIVER

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged

in his work. So in treating the lagging, torpid liver it is a great

mistake to lash it with strong drastic drugs. A torpid liver is but an

indication of an ill-nourished, enfeebled body whose organs are weary

with over-work. Start with the stomach and allied organs of digestion

and nutrition. Put them in working order and see how quickly your

liver will become active. Dr. Pierce's Golden Medical Discovery has

made many marvelous cures of "liver complaint," or torpid liver,

by its wonderful control over the organs of digestion and nutrition. It

restores the normal activity of the stomach, increases the secretions of

The by-law did not get to its third reading. Ald. Fell said he wanted time to study the amendment before he could vote intelligently on it.

The Mayor and Ald. Gleason were anxious that the amendment should become law at the earliest possible moment, but their haste was characterized by Ald. Fell as an attempt to "railroad" the measure through.

Considerable bewilderment existed in the aldermanic minds for a few moments after it was discovered that Ald. Fell had blocked the third reading, and several tilts materialized between the Mayor and that gentleman. Upon introducing the amendment by-law, Ald. Gleason said that the city sollicitor's letter made it unnecessary for him to make any remarks concerning it. He moved that it be read after time.
