-The production of "The Messiah" on the 20th inst. is already an assured success both from a musical point of view and in the matter of attendance. The plan of reserved seats is now open at Hicks & Leitch, 881 Commercial street. The centre seats downstairs are being reserved as well as the usual sections in the gallery.

-An amusing incident occurred in connection with the sale of naval effects at the Victoria Arsenal this week, an account of which appears in another column. Among the speculators was one from "Frisco" who entertained an exaggerated idea of his astuteness. He made certain overtures to Auctioneer Hardaker in private and these were sternly rebuffed he became offensive. The auctioneer promptly told him to get out. Thereupon some of his local competitors decided to have some fun at his expense and incidentally rid themselves of him. They told him

the close of the meeting a very hearty vote of thanks was accorded Mr. Hutchison. This paper concludes the series that have been given throughout the winter. -The machinery of the new Empire cannery on Esquimaux harbor was set in operation for the first time on Saturday, Sunday afternoon. The machinery gave every satisfaction. The manufacture of cans in preparation for the approaching fishing season will be commenced as soon as possible. One of the owners, C. F. Todd & Son, was yesterday down to Sherrington Point, where a number of new traps are being erected for the same management. They travelled down to Sooke in an automobile, and on the return from that point made the run in 1 hour and 33 minutes, which indicates the superior speed of vehicles of this kind over all others.

SOCIALISTS REPUDIATED
A Rossland dispatch, dated April 13th, says: "The result of the referendum which was in progress on Monday, Tuesday and Wednesday, in Miners' Union hall, and at which every available member of the Rossland Miners' Union voted, was announced by Secretary Scott today. There were several questions voted on, with which the public has no concern, as they were in reference to changes in the constitution.
"The resolution that provided that the local union should take an independent political stand was carried by a majority of ten to one. The resolution endorsing the principle and platform of the Socialist party of Canada was defeated by a vote of twelve to one. Secretary Scott said in reference to the first resolution that it meant the union could support municipal, provincial or Dominion candidates, as it desired, provided it is thought to be in the best interests of the working classes to do so."
"THE MESSIAH."
Toronto Will Be Given in Metropolitan Methodist Church on April 26th- Rehearsal on Wednesday.
The production of the grand old oratorio, "The Messiah," which is to take place in the Metropolitan Methodist church on Wednesday, the 23rd inst., promises to be the finest of any oratorio performance yet given there, and it will be admitted by all who listened to Hayden's "Creation" last year that this is saying by no means a great deal. The chorus this time is larger by about fifty singers, numbering altogether about 170 voices. Added to this, the public is to have the opportunity of hearing the greatest bass singer on the coast, H. T. Hanlin, of Seattle, who studied five years in Italy under eminent teachers, and Mrs. Jennie Haughton Edmonds, also of Seattle, soprano, who is also a singer of exceptional ability. The contralto and tenor solos are entrusted to Mrs. Gideon Hicks and E. Howard Russell, of this city.
"The Messiah" rehearsal will be held in the Metropolitan Methodist church on Wednesday evening at 8 o'clock sharp. Only two rehearsals remain in which to finish the work of preparation, and it is sincerely hoped therefore that every member of the chorus will be present on Wednesday night.
Toronto, April 15.-The Anglican church of Canada last year raised \$247,500 for missions.

CHINAMEN RIGHT GAMBLING CHARGE
TWENTY-FOUR WERE GATHERED IN RAID
THEIR CASES ARE SET DOWN FOR HEARING IN POLICE COURT THIS AFTERNOON.
(From Monday's Daily.)
Twenty-four Chinamen were the harvest reaped by Chief Langley, Sergeant Detective Palmer and Police Officers Palmer and Fry in a raid on an alleged gambling house on Saturday night. The premises, located at 40 Cormorant street, were found to be securely barred when the police attempted to enter. Every precaution had been taken by the police, however, not to be balked in their work. The two officers scaled the walls of the building, and while the chief and sergeant-detective guarded the door, the police officers dropped in through the skylight.
The attack was in every way a strategic success, and the circumstances connected with it will likely play an important part in the case, as the Chinamen are going to plead not guilty.
Some of the paraphernalia was thrown into a heater by the Chinamen, but by this time Chief Langley and Sergeant-Detective Palmer had been admitted by the unlocking of the door. The chief put out the fire by throwing in water, and the heater is one of the exhibits carried off for production at the trial.
All but four of the Chinamen taken in the raid were admitted out on bail. The remaining four were kept in the lock-up. The Chinamen are pleading not guilty, and are represented by Alexis Martin.
The case was formally called this morning, after which adjournment was taken until this afternoon so that Mr. Martin might consult with his clients.
Some little discussion of the procedure took place between the police magistrate and Mr. Martin. The police magistrate called attention to the fact that he would have to face the evidence that the door was barred, and other features which would under the code become practically prima facie evidence against the men, and that the onus of proving that the place was not a gambling house would fall upon the prisoners.
Mr. Martin did not wish to view, holding that this would only be a waste of time, and that it was an unlawful game which was being played. The case was remanded until 2 o'clock.
The perjury charge against Chin Hong was remanded until Thursday.
John Murray, an old offender, brought into the police cells by the patrol wagon, was fined \$5. Another drunk did not appear for trial.
A Chinese assault was remanded until to-morrow morning.
FARMERS' INSTITUTE.
Interesting Address By James Murray at Meeting on Saturday.
A supplementary meeting of the Victoria Farmers' Institute took place on Saturday night at the Colquhoun hall. The meeting was called to hear James Murray, of the state division of the general agricultural department, Ottawa. There was a good attendance, including some ladies. The president, Mr. Gale, was in the chair.
The deputy minister of agriculture was first called upon by Mr. Murray, who gave a most instructive address on pure seed. He explained the manner in which grain was affected by smut and rust, and the remedies used for smut. Formerly in a different form for oats and bluestone for wheat, he said, were generally used. Rust, inasmuch as it attacked the leaf and stalk, is not so easily controlled. Clean cultivation and thorough drainage were recommended. He spoke of the importance of selection of seed and how it affected the production.
In one experiment the production of selected seed year after year from the same parentage amounted to a twelve-year's harvest of bushels per acre, over and above that produced from unselected seed from the same parentage, and treated in exactly the same manner. The vitality of seed and the importance of testing for vitality was dilated upon.
The infection of seed with weed seeds was also referred to, and the importance of purchasers examining seed with a glass microscope. In some instances, which he cited in this province, as many as 123,750 weed seeds were found in a pound of clover seed.
Mr. Murray this morning left for Dunsmuir after a meeting will be held this evening. To-morrow, on his return, he will proceed to Metochin, where a meeting will be held at the public hall at 8 p.m.
A STRAWBERRY MARKET.
Eastern Dealer Wants Regular Shipments of British Columbia Fruit.
"W. H. Lewis, one of the large fruit growers of Burnaby, has just received a letter from G. W. Hunt, proprietor of a wholesale fruit dealer's business in Ottawa, known as the Ottawa Fruit and Foreign Exchange, says the New Westminster Columbian. "Mr. Hunt states that he has interviewed the Dominion Express officials, and that if the strawberry fruit of this portion of the province can be guaranteed to ship to the East 400 crates of berries either daily, twice or three times a week, the Express company will put on a special through car. These shipments to aggregate 400 crates can be guaranteed to ship to the coast and Mission Junction.
"Mr. Hunt continues: 'Now it remains with the British Columbia growers to say whether or not you can give me the berries. I can assure you prompt returns and satisfactory prices at this end if you will give us the fruit, and will gladly look after your interests, besides keeping you advised daily as to the condition of the market here (Ottawa).'"
"Mr. Lewis is of the opinion that the through car proposition is a very good one, and offers another outlet for the excellent berries that are grown in this part of the province. He considers the plan a most feasible one, and sees no reason why enough growers could not get together to agree to make at least three shipments each week of 400 crates."
THE SALMON FISHERY.
Commission Will Be Appointed to Go Into the Whole Question.
H. O. Bell-Irving, who has spent the winter in the Old Country with his family, and has come out to superintend the operations of the Anglo-British Columbia Packing Company during the fishing season, has arrived in Vancouver. Accompanying Mr. Bell-Irving was his son, H. B. Bell-Irving.
I saw Hon. Mr. Prefontaine and Prof. Prince at Ottawa when I came through," Mr. Bell-Irving said to a Vancouver News-Advertiser reporter, "and the minister of marine and fisheries told me that he was determined to appoint at once the commission which will inquire into the whole of the salmon fishery question. He stated definitely that the appointment would take place not later than the end of the present month. He was much disappointed over the action of the Washington state legislature in turning down the legislation to co-operate with Canada, and said he was also having trouble in other sections. There are valuable fisheries all along the border, and Americans have come to him asking for privileges. He has declined to take any action until everything is settled at one time. This is very probable, as negotiations are now proceeding for the appointment of a Federal committee to act with the Canadian commissioners, and the two will jointly take into consideration the many questions affecting the fisheries. The fisheries in each state are controlled by each, but it is very likely that the Federal commissioners will be given authority to act for all."

THE STEAMER TACOMA.
Seattle, April 14.-In a letter written to a friend in this city, Otto Daniels, chief engineer of the Northwestern Steamship Company's steamer Tacoma, which was captured by Japanese cruisers while attempting to run the blockade to Vladivostok, dispels the mystery which has surrounded the history of that craft since leaving this port on January 6th. Daniels states that the officers of the steamer knew that they were bound for the Siberian port, and that their cargo was contraband. He says that the officers were only prevailed upon to make the voyage by the promise of the Russian agent aboard the steamer. They did not know their destination until the steamer reached Dutch Harbor. As soon as they found it out they threatened to desert the ship, and a mutiny was only averted by the diplomacy of the Russian agent, who promised them a full fortune if the attempt was successful.
The writer states that while the Tacoma was fast in the lee and drifting about, the crew were forced to burn parts of the steamer's upper structure to keep warm, and were obliged to subsist for a part of the time on beef intended for the Russians.
Daniels says that after being captured the entire crew were treated with the utmost kindness by the Japanese, who were in possession of the name and position of every member, almost from the moment of the steamer's leaving this port.
GERMANY'S POLICY.

REV. DR. CLEAVER IS VISITING THE CITY
Former Pastor of Metropolitan Methodist Church Spending Week Here En Route East.
(From Monday's Daily.)
Rev. Dr. Solomon Cleaver, formerly pastor of the Metropolitan Methodist church, who for upwards of five months has been touring California, taking a much-needed rest for the benefit of his health, is returning friendly among the members of his old congregation. He made his appearance in the Metropolitan Methodist church on Sunday, and just before the closing of the regular evening service made a few remarks, which were well received. He had been instructed by his physician before leaving Toronto, his present home, not to do any preaching, although the temptation to do so on his return was very strong. He was delighted at being able to look into the faces of his old congregation, and while not intending to enter on any sermon, he felt like making an appeal for the upbuilding of character. Rev. Dr. Cleaver told an interesting story, illustrating his subject, incidentally showing his wonderful command of language and his power of word painting.
Needless to say the many friends of Dr. Cleaver are more than pleased to see him back in Victoria, and to them his contemplated stay of a week in the city will seem all too short. He is accompanied by Mrs. Cleaver, and the two will leave here en route east on Monday next. They expect to be back in Toronto in May, when Dr. Cleaver will again resume his pastoral duties in connection with the Sherbrooke Methodist church. These are now looked after by his assistant, Rev. S. G. Fairclough, and occasionally by Dr. Courties.
Dr. Cleaver's four-year term in this church will soon expire, and it is probable that his next four years will see him in charge of the Metropolitan Methodist church, Toronto, a building that has a most interesting history, and which has attended it one of the biggest congregations in Eastern Canada. Dr. Cleaver has received an invitation to this church, and it is believed that he entertains it favorably.
When in California he spent his vacation very quietly, visiting among other places, San Diego, Pasadena, Catalina Island and Ocean Beach. The foliage of California at this season of the year was something that greatly impressed him, but in this matter of climate, he says, he says nothing to equal Victoria. But Victorians, he added, do not appear to take advantage of the natural conditions as do California. Dr. Cleaver is greatly improved as a result of his holiday.
QUESTION OF HOME.
A. P. Luxton, K. C., Argues that Alex. Dunsmuir Always Remained a Victorian.
(From Monday's Daily.)
The argument of A. P. Luxton, K. C., for the defendant in the appeal of Hopper vs. Dunsmuir, was continued to-day in the Full court. Mr. Luxton dealt with the question of the domicile of Alex. Dunsmuir. He quoted from various witnesses to show that Alex. Dunsmuir looked upon Victoria as his home. He always spoke of going home when he contemplated coming to his home, and when intending to leave for San Francisco never spoke of going home, but said he was going down to San Francisco.
Chief Justice Hunter interjected a question, asking Mr. Luxton if he did not sometimes refer to going home to England?
Mr. Luxton said: "No, not now."
"Nor since this case began," said E. V. Bodwell, K. C.
Continuing, Mr. Luxton said that to others Mr. Dunsmuir spoke of returning to Victoria in his own way, and always defended himself as remaining a Britisher. On his last trip to New York, shortly before his death, he registered at the hotel as "Alex. Dunsmuir, Victoria." The home at San Leandro was always referred to as being built for Mrs. Wallace or Mrs. Dunsmuir. It was never described as being built for himself, it being always understood that he would return to Victoria to live.
