She took up the heavy hammer and the chivel, and was concealing them under her black silk apron, lest she should be met going down-stairs on her way to the col-box, when a quick knock came to the chamber door right in front of her. It startled her into a scream, which she could not have prevented had her life depended on it.

[As she heard her go through the front door, some one appeared to enter it, and foot-steps came up the stairs. Was it Mrs. Janson returning? A cold fear was turning Maria's heart to chillness, and something like a dull sound began to thump in her brain. Not Mrs. Janson. It was Miss Hardisty who entered.

JAS. W. FRASER TO THE FARMERS OF MIRAMICHI We have been Manufacturing

For the last four years, and are now offering to the BEST MOWER combining greater excellence of mechanical simplicity together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant. —In construction they are similar to the celebrated Walter A. Wood's Iron Frame Mower, and the Richardson Buckeye, both American Machines. Of the former there are over 200,000 in use, and the extraordinary lumber of 20,000 were manufactured and sold last season, by the Wood Company of United States. We have ver 500 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the grand and unprecedented success of home manufacture and our enterprise. A list of our Agents in this secti no of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their anquesti-nable superiority over any other mower to be had in our market.

The facility of procuring all parts or pieces within a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Maritime Provinces.

For the coming harvest of 1877 we will manufacture LARJIT in excess of our numbers of 1885 beason, and trust that our growing enterprise may find such inducements held out to it as will be commensurate with its merits.

Let it be remembered we have no hesitation at all times, in entering into a friendly competition in the fill with any other machine in our market.
