WOLFVILLE

MONCTON, April 20 .- Fire at Catamount, a station on the I. C. R. about 12 miles north of Moncton on Sunday evening destroyed the house and barn of Fred Lightfoot with nearly all their contents, including hay, three cows, a plow, harness, 20 bushels of potatoes n the cellar, furniture and with \$10 in cash which Mr. Lightfood had laid away for the purpose of buying seed this spring. The horse which was loose in the barn, was the only animal saved. The fire apparenty caught from a spark and spread very rapidly. The only person about the place at the time was Mr. Lightfoot's father, who is quite blind and was unable to do much either towards putting out the fire or saving the con-

tents of the buildings. Mr. and Mrs. Isalah Trites of Lutes mer Lady Laurier left St. John Mountain intend leaving for British Columbia next week. They have two sons located at Steveston and were out there themselves for a time, but returned to New Brunswick three or

IN BOSTON

The McAleer Will Case Has Been Appealed.

Smuggling Operations Along the New Brunswick Border—Henry M. Whitney on Reciprocity.

BOSTON, April 24.-The country folks are complaining of the cold weather and general backwardnes sof season. Much of the common has been ploughed up and seeded. City agricul- tations are as follows: tural operations entail a big bfil, but things are not done by halves and and 12 inch dimensions, \$20; 9 inch and crops are obliged to ground by natural means or artificial.

Helena, Sarah and Anna McAleer, through their counsel, have entered an the decision of the probate court allowing the will of their father, Patrick McAleer, the wealthy builder and real estate owner, who came here from St. John many years ago. The contestants hold that the will was in favor of their brother, John, and his children, and that it was procured by fraud through the undue influence of the testator's son. They also set forth that their father was of unsound mind. The sisters and their brother have not been on good terms for years, and the contest in the probate court brought out some strong testimony. That court allowed the will to stand. The property involved amounts to nearly \$1,000,000. McAleer was born in St. John, and when he had saved \$1,000 he came to Boston and by hard work and judicious investments in real estate he accumulated a fortune. For many years he owned real estate in his native city. General business in this section of the United States is far from good, notwithstanding the efforts of some of the Boston newspapers to suppress unfavorable reports. In the mill towns, with some exceptions, the outlook is

far from bright, and it looks as if a long, dull summer was ahead. A score of the Fall River cotton manufacturing corporations are running four days dicted a general shut down will be or dered next month. Many of the mills elsewhere are running but four and five days a week, and numerous concerns perating on full time are not using all of their machinery. Hundreds of French-Canadians are leaving for eman should know that he never Young People's Club on Wednesday Canada each week the small earnings in the mill towns having forced them to move. Many of the departing operatives have secured grants of land from the government in Quebec and the Northwest, and they will settle permanently. The textile industry in

> ed by Poles, Greeks and other foreigners from trans-Atlantic countries. The first annual reception and banquet of the Intercolonial Club, a new organization of provincialists, was held last night at the Copley Square Hotel. John A. Campbell, the president, and Vice-President A. C. Chisholm were in charge of the festivities. J. M. Masters, Fred J. McLeod, Nell McNeil and Richard J. Johnson were among the speakers. The club insists that former provincialists desiring to become members must be citizens of

New England is becoming less attrac-

tive annually to French-Canadians.

and gradually they are being supplant-

the United States. Henry M. Whitney, president of the Boston chamber of commerce and or-ganizer of the Dominion Coal and Dominion Iron and Steel cmpanies, states that 35,000 business men in this state have signed a petition in favor of reciprocity with Canada. In discussing the subject last night, Mr. Whitney said: "It is said that Canada does not desire reciprocal relations with us, but the real reason is that Canada has been turned away so many times when she has sought to negotiate reciprocity treaties with the United States. We have Sir Wilfrid Laurier's word for it that the liberal party in Canada will never desist until it obtains unrestricted continental reciprocity. I believe that Canada would meet us in a spirit which would permit of an agreement that would make trade between the two countries as free as it is be-

tween the states of Massachusetts and New York." The grand jury of the United States circuit court in session at Portland has before it a sugar smuggling case from the New Brunswick border. Phillip and William Lyons of Baring, Me., are charged with bringing over the line 2,200 pounds of sugar, upon which it is alleged, they evaded the payment of duty. Both are held in

\$300 bail Fred W. Lindsay, a Nova Scotian was sentenced to serve six months in the house of correction a day or two ago for taking goods from a Charles-

town store. It is announced here that the steamers of the Canadian Pacific railroad and the Allan line are to be equipped with the submarine signalling service, with which the Canadian government recently decided to install on the Larcher. Halifax and St. Lawrence light ships. Henry M. Whitney is president of the company which controls the

patent rights. It is understood that the Episcopal church authorities have found that Rev. St. Ethelbert Yates, late of North Conwey, N. H., committed no dishonest or illegal act when he and young lady of his parish went to Halifax some time ago and were married. It is denied that he left a wife behind him. He has been appointed rector of churches at Madison and Howard, S. D. The rector's disappearance was published in the Sun several weeks ago. Some of the Boston and Halifax papers went so far as to give currency to rumors that he was married to two wives.

ALL SAVED

Lumbermen Have no More tically clear. The Clayton returned to St. John in 6 hours and fifty minutes Reason to Worry.

The Up-River Booms are Strung and All the Logs Which Ran Out Have Been Caught.

Lumbermen have this season had one continued run of luck and all are til at least after the driving is over. A month or six weeks ago things looked rather blue. There were many millions of feet of logs hung up in the river, and the condition of the ice was such that the loss of a considerable quantity of these seemed practically certain. Above Springhill the ice was said to be thin, while below Fredericton it was reported solid. From this it was feared that the upper ice would run first and carry with it the logs lying in the stream. This would, in all probability, happen before any booms could be strung and the saving Collins, Wm. Flemming, John Bren- of the logs would mean a hard fight nan, Daniel Dwyer, James Ready, on the lower reaches. But exactly the Lancaster-Mrs. James McCarthy, has gone to no little expense in the

opposite has happened. Fred Miles has been placed in charge of the work of saving the logs for the owners, and way of preparing for this work. As events have shown, this expense has scarcely been necessary, though perfeetly justifiable. The heavy ice in the petatoes, turnips and eggs. lower waters has gradually disappeared, leaving Mr. Miles a clear stretch on which to work. This ice has practically all melted or run out before the upper ice moved, and the work of saving the few logs which have come

easy. The upper ice, which it was feared has been laid up during the winter. would move first, has held on. A certhe Rev. Ernest Stires, D. D., rector, tain quantity came down, carrying George Christopher Murray of New York with it between one and two million of logs, but conditions in the Fredericton district have become such that the ing the main booms. This being done, being what it is, all danger of losing logs is practically over.

The success or otherwise of the drivlumbermen feel that there is no cause for alarm. The water rose considerably during a recent spell of warm ter of the late Ernest and Annie May weather, but for the past week or ten days the cool evenings have stopped Allam.

MONEY TO LOAN on city, town, village

WALTER O. PURDY

The many friends of Walter Purdy will regret to hear of his death which Purdy. At an early age he went to St. Stephen to enter the employ of G. C. Clerk, where he remained about five years, after which he returned to St. John, where he accepted a position with the St. John Bolt and Nut Co., which he retained for some years, He then went into partnership with James Pender in the horse nail business, and on the formation of the new company was made secretary, which position he held up to the time of his death.

For some years Mr. Purdy has not been enjoying good health. About five years ago he was obliged to go to the South Sea Islands. Later on he went to Texas, where he was taken ill, and had to be brought home. About six weeks ago he went to the sanitar ium at Wolfville and was there but a short time when hemorrhage set in. He was obliged to return home, and a few days ago went to the general public hospital. Mr. Purdy made a gallant fight for life and had the sympathy of hundreds of citizens whom he had been connected by bustness and social intercourse.

A LITTLE IN IT.

(Philadelphia Public Ledger.) "I've been thinking of starting in business for myself. I wonder if there's "Oh, yes. My wife found a dime in
